Strike Enters Second Week Favoring Miners

Rival Forces Contest Pennsylvania Field Where Non-Union Men Are Reported Joining Strike —Production at Lowest Ebb.

Indianapolis April 10—The second week of the nation-wide suspension of work by union coal miners got under way today with the union's organization still presenting an unbroken front and the situation in the non union fields becoming more favorable to the union's cause according to the view of the situation expressed by John L. Lewis president of the United Mine Workers of America Mr Lewis returned to Indianapolis yesterday

'100 PCT EFFECTIVE

As I view the situation he said 'the program laid down by the organization is functioning 100 per cent In the non union fields I feel the international union is steadily gaining strength

Mr Lewis said he planned to remain here for several days

STORM CENTER

Pittsburgh April 10—Union leaders and coal operators today centered their attention on Fayette county where a strong force of pickets organizers from the United Mine Workers were straining every force to organize the coal and coke workers of the H C Frick Coke company the most important non union coal producing concern in western Pennsylvania

CLAIM VICTORY

The union leaders insisted that they had made great headway and the operators agreed that about eight thousand men had quit work in some mines of the Frick company and in a much larger number of mines operated by independent companies

Both sides were of the opinion that the next few days would tell the story

NEW LOW RECORD

Washington April 10—Production of bituminous coal in the United States dropped to 3,000,000 tons—the lowest in modern coal history—while work in the anthracite fields 'ceased entirely' during the first week of the coal strike according to a review issued Sunday by the United States geological survey

Reports received by the survey indicated that from 60 to 64 per cent of the bituminous tonnage of the coal has been closed down by the strike while of the remainder a significant portion has not been operating recently

OPERATOR SPEAKS

St Louis April 10—Placing the coal mines on a six hour basis as demanded by the striking coal miner would mean an increase of pay of 20 per cent for the men working on a day wage scale and a decrease of production of 40 per cent W K Kavanaugh president of the coal operators association of the fifth and ninth Illinois district said in a statement Sunday

MAY DROP BARS

Indianapolis April 10—Attorney-General Daugherty, who arrived here from Washington today unannounced was declared authoritatively to be considering the dismissal of indictments pending here in federal court which some operators have declared made impossible any wage conference that would end the coal strike which began April 1

ISSUE INJUNCTION

Charleston W Va April 10—Nine union members and officers were prohibited to interfere with free competition among men working in the coal industry in West Virginia and tent colonies of strikers in Logan county were not to be maintained after thirty days in a temporary injunction issued by Judge George W McClintic in United States district court here today

COMMISSION MEN CLAIM SMALL PAY

Chicago April 10—Livestock commission men received less than two thirds of one per cent commission for negotiating the sale of farmers cattle hogs and sheep during 1920 according to official figures compiled by the National Livestock Exchange at the request of the joint congressional commission of agriculture inquiry and made public Sunday night

Statistics representing 54 per cent of all the business done on the 28 markets where exchanges are maintained were secured from 213 representative livestock houses at Chicago Kansas City Omaha South St Paul Sioux City South St Joseph Detroit Cincinnati Cleveland Buffalo and Indianapolis The figures covered the transfer of 645,140 cars of livestock worth $1,998,365,574

WILL NOT PRESS MURDER CHARGES

Rules Day Case Evidence Not Justifiable.

[By the Associated Press]

Oklahoma City Okla April 10—Post field army aviation officers paid a last tribute of love and respect for their former commandant Sunday afternoon when from four airplanes high up in the sky they cast hundreds of roses to the wind showering with flowers the eastbound train which was taking the body of Lieut Col P W Beck to Arlington National cemetery for burial

Beck was slain early last Tuesday morning in the fashionable home of Jean F Day wealthy oil man and attorney and Saturday a coroner's jury exonerated Day because its verdict said he was justified in taking the officer's life

CHAPTER CLOSED

County Attorney Hughes who headed the prosecution at the coroner's inquest said Sunday night he did not think evidence introduced at the hearing would justify the spending of state money in pressing a murder charge against Day He added that his final decision would be made known Monday

Mr Hughes made it clear that he would not hesitate to prosecute the case should new developments be brought out which would justify such procedure

OFFICIAL SNARCH

This announcement followed a statement by the Fort Sill investigating board which questioned the truth of the testimony of Mr and Mrs Day at the coroner's hearing and recent of unofficial reports that a searching inquiry was about to be launched by the war department into the officer's death

REPORTS ON 350 MILLION CUSTODY

Enemy Property Accounting Is Presented.

Washington April 10—An accounting of the $300 000 000 worth of enemy property held by the government was given the senate today in a report, the first compiled since February, 1919 filed by Alien Property Custodian Thomas W Miller in response to a resolution by Senator King Democrat of Utah

The final disposition of this property Mr Miller said will undoubtedly have a direct bearing on the economic relations between this country and Europe with particular reference to the late enemy powers The sequestered property will also have a hearing on the question of the settlement of American claims against Germany

HALTS SETTLEMENT

Discussing the $4b 000 000 of American claims against Germany Mr Miller recalled the terms of the Knox Porter peace resolution indicating that no disposition should be made of enemy property held by the United States until the German government had provided for the settlement of all American claims He asserted that congress must evolve some plan whereby American claims against Germany may be adjudicated by some proper tribunal created by law

VARIOUS CLASSES

There are several classes of claims against Germany Mr Miller said as for instance those of Americans whose cash was seized by the German custodian and who are now being offered the return of their money at the depreciated value of the mark which today is valued at one third of a cent for each mark or a return of 720 per cent from the pre war value

This proposition amounts to practically confiscation on the part of Germany There are also claims on file with the state department for the loss of property and life at sea growing out of submarine sinkings previous to April sixth 1917'

Italian Towns Dispute Soviet Entertainment

Each Claims To Be Host—May Ask Genoa Diplomats To Settle Argument.

[By the Associated Press]

Santa Margherita Italy April 10—The towns of Santa Margherita and Rappalo are waging a bitter dispute regarding which municipality actually is host to the Soviet delegation to the economic conference at Genoa There is talk that the Genoa conference of the League of Nations may be called upon to arbitrate the difficulty

CIVIC PRIDE

While the Imperial Palace hotel in which the Bolsheviki delegates are living actually is within the municipal bounds of Rappalo it is more than two miles from the Rappalo station and only two blocks from the Santa Margherita station

The hotel is but a few rods within the town limits of Rappalo and the dividing line between the two municipalities is so artificial that the Santa Margherita realtors hotel keepers and members of the commercial club assert that it is an outrage' for the economic conference and the Genoa newspapers to speak of the famous hotel as being in Rappalo and thus send visitors more than two miles out of the way to reach it

EXCESS CAB FARES

It is declared that when the impatient visitors reach Rappalo they have to hire taxi cabs or cabs in order to reach the hotel with its medieval moats and sentries more picturesque than the swiss guard at the Vatican The forced extra journey of the visitors is said to be lining the purses of the taxi cab drivers and cabmen

HAPPENED BEFORE

The charges made also that this is the second time Rappalo has robbed Santa Margherita of its glory The Italian Jugo Slav conference which settled the Fiume dispute also met at the Imperial Palace hotel and the treaty which resulted from the gathering was called the treaty of Rappalo to the disgust of the loyal Santa Margheritans

AT ANY PRICE'

It is reported that the Italian government will purchase the hotel and make it a national monument to peace if the Genoa conference is successful

Travels 900,000 Miles and Never Missed Train!

BY JANE COMPTON.

(By Consolidated Press Leased Wire)

New York April 10—Round the world six trips—and never missed a train—this is the record of Miss Celeste Miller which gives the courteous giggle to those anti feminists who say no woman is ever on time To circle the earth six trips is something But to circle it without being late even once for a train steamboat rickshaw caravan or catamaran—that is something for even a man to brag about

GOAL A MILLION

Miss Celeste told today how she always manages to be on time to a it with justifiable pride as she paused in this city on her way to the Miller home in Chicago after the latest lap of her 900 000 miles and 40 years of travel She means to make it an even million miles before she is done and the train never puffed or the camel never whoezed that can get under way without Miss Celeste aboard if aboard Miss Celeste should be

SPEAKS BUT ENGLISH

At the age of 74 she is still girdling the globe with no other language than English no other escort than her time pieces no other weapons than her three cent cane

It is of her unfailing ability to be on dock or station platform at the proper time that she is proudest After all granted leisure and money anyone can travel 900 000 miles But it takes determination shrewd planning and nine time pieces to hold the world's record for making trains And Miss Celeste holds it

REPELS ROBBERS

With her stout cane and her stout heart Miss Celeste has traversed Java Burmah Japan China India Ceylon Africa The Andes Siberia the Malay Peninsula and New York Two Filipinos tried to hold her up as she was stepping along in a jungle quite alone except for the aforesaid defensive weapon She swung her cane twice Two Filipinos awakened some hours later in a hospital

Miss Celeste couldn't stop to be robbed She was on her way to catch a train

CAPITAL'S WOMAN COP ACQUITTED—IS ONLY REPRIMANDED

BY BURTON LEE.

(By Consolidated Press Leased Wire)

Washington April 10—Miss Mina C Van Winkle has been acquitted—and the flapper cops still live Washington society breathed a sigh of relief For what Mrs Van Winkle knows of Washington life still is an official secret The police trial board didn't treat Mrs Van Winkle rough The old steam roller which was to have flattened out the chief of the women police failed to get up the proper amount of steam

AWAITED TESTIMONY

Various senators and representatives on Capitol Hill who knew something of what Mrs Van Winkle knows are greatly disappointed that the attempt to railroad her broke down For they feel that the woman chief scorned could have furnished some very lively testimony before a congressional investigating committee

REFUSED TO OBEY

Mrs Van Winkle is said to hold the highest police office of any woman in the country She was accused of refusing to obey the orders of a superior officer She is a Lieut in rank and refused to release two runaway girls on the order of an inspector

The police board says she was not guilty but must NOT do it again" It also says she has not a proper conception of the cardinal principle of discipline which must prevail in a police department.'

TUSCOLA CHURCHES HAVE GOOD SUNDAY

Interesting Services Are Well Attended.

Tuscola, April 10—Although the country roads were not good in a general way, the fine weather of Sunday morning brought out good attendance at the Tuscola churches.

At the Presbyterian church, there was a congregational meeting of a business nature Sunday morning, having to do with the recent resignation of the pastor, Rev. G F. Bauer, who goes to Frankfort, Ohio. No special announcements for the week were made. On next Sunday morning there will be an Easter program by the Sunday school, and in the evening another of the illustrated talks, the subject being "Alaska."

At the Baptist church there were the regular services for the day. On Tuesday evening the members of the "Agoga" Sunday school class will meet at the home of Mr. and Mrs. Raymond Chaplin. On Friday after school the 'W. W G' girls will meet with Dolores Toliver. No special Easter program is being arranged for

At the North Side Christian church there were no preaching services on account of Sunday being the regular day of Rev I. N Hoel, the pastor, at Atwood There were no special announcements for the week No Easter program is being prepared as that will be combined with a Children's Day service later

PREPARING CANTATA.

At the South Side Christian church there were the regular services on Sunday In addition to the regular services for the week, the Women's Missionary Society will have charge of a special prayer service on Wednesday evening, in connection with the week of prayer program An Easter Cantata is being arranged by the choir for next Sunday evening, at the preaching hour.

No special services for the day or week were reported from the Lutheran or Catholic churches

IMPORTANT SERVICE

Sunday was an important day at the Methodist church It had been arranged for some time to make Sunday a general ingathering day for those who contemplated entering the church, and a class of thirty-three people mostly grown-ups were taken into membership at the morning service There was special music by a double quartet.

The regular monthly meeting of the official board will be held on Moonday evening. The Young Women's Home Missionary Circle will meet Monday evening with Mrs. J. C. Waddington. The continuation of the discussion of Bible proofs will be the theme at the Wednesday night meeting.

FORMER EMPRESS DESIRES CHANGE

Geneva, April 10.—As former Empress Zita of Austria-Hungary has expressed a wish to reside with her children in the Chateau Wartegg the property of the Duke of Parma, situated in Switzerland, the council of ambassadors has requested Switzerland to grant her the necessary permission.

The Swiss government is considering the matter, but it is said that before acquiesence is given it will require assurances that Zita will not enter into any intrigues.

Zita has stated that the climate of Madiera does not agree with her and her children.

Those repairs won't be expensive

Not if you use genuine Beaver Board. The cost of Beaver Boarding is surprisingly low, yet the results are as permanent as they are good looking.

You can nail the big panels over old plaster or directly to joists and studding as easily as you would in finishing up new interiors. Either way you can count on a job that's eminently satisfactory.

Genuine Beaver Board is knotless, flawless manufactured lumber, made from white spruce logs. Each panel is sized by the *patented Sealtite process*, which makes a perfect painting surface.

Nail up the panels, paint, if you care to decorate, add the finishing wood strips and the job is complete. It's quick, clean work, with little sawing and practically no waste, muss or litter.

So, don't postpone needed repairs or remodeling work because you fear the trouble or expense. Any carpenter or lumber dealer in town will gladly estimate the cost of the Beaver Boarding you want to do. See about it today.

Above all, be sure you use genuine Beaver Board. Look for the Beaver Quality trade-mark on the back of each panel. It is there for your protection. Insist upon seeing it.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated olive-colored tablets They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30c.

FINE MUSIC HEARD ON PALM SUNDAY

Several Churches Have Elaborate Cantatas.

Palm Sunday music programs at several of the city churches drew large crowds Sunday evening, though other services also were largely attended. The bright weather made the day an ideal one to be out, and many who had been kept away from church by rainy weather the last few Sundays were in their places again Sunday.

Most of the churches had special music for the day, and in several of them the programs were elaborate ones. Next Sunday also will be a big day musically in the churches, the Easter music being given at that time.

AT FIRST M. E.

A crowd which completely filled the auditorium at the First Methodist church and overflowed to the Sunday school room heard the beautiful rendition of the cantata "From Olive to Calvary" Sunday night. The cantata was given under the direction of Eldon Geiger. The soloists were Lloyd Moffett, tenor, Mrs. Harry Baker, soprano; Mrs. Julius Botts, contralto, and Clark Uhler, bass. Miss Norma Rodgers the organist accompanied.

The program was much enjoyed At the union evangelistic meetings in the church this week with the First Presbyterian church, the themes are all based upon scenes in the cantata. Rev. Chesteen Smith's address Monday night will be on "Jesus in the Garden." Dr. C E. Jenney will speak Tuesday night and Dr. Shailer Matthews will preach each evening the remainder of the week

WESTMINSTER CANTATA.

Every seat in Millikin auditorium, upstairs and down, was taken Sunday evening when the choir of Westminster Presbyterian church presented the cantata, "The Last Seven Words of Jesus" under the direction of D M. Swarthout. The soloists, Miss Fredarieka Green, soprano, Kenneth Pound, tenor, and W. B. Olds baritone were in good voice while the choir did some of the finest work of the year.

Miss Ruth Brown was at the organ, Miss Sylvia Fisk at the piano, Miss Florence Brown was violinist, and H. J. Heinz played the 'cello. The cantata occupied the full evening. More than fifty voices were in the choir.

CANTATA AT GRACE.

A well filled church heard the cantata "The Crucifixion" at Grace Methodist church Sunday night. The cantata was written by Dr. John Stainer and is a meditation on the sacred passion of the Holy Redeemer Bass and tenor solos and male choruses accompanied and the entire program was well given.

In the morning a regular program of music was given, Miss Vivienne Mosbarger singing the offertory solo.

ST. PAUL'S LUTHERAN.

The regular chorus and a male chorus from St. Paul's Lutheran church gave a number of beautiful selections appropriate to Palm Sunday in the evening.

ELWIN CHILD IS DROWNED IN JAR

Falls Headforemost Into 10-Gallon Vessel.

Elwin, April 10—With head submerged in about five gallons of water contained in a ten-gallon jar, the lifeless body of Lloyd Stickle, two-year-old son of Mr. and Mrs. Lloyd Stickle, was found Sunday afternoon in the yard at the Stickle home, a quarter of a mile east of Elwin. All efforts to resuscitate the child, including the use of the lung motor of the Decatur fire department, which was rushed to the scene, were unavailing.

During the afternoon the boy went into the garden to play. His mother brought him into the yard, shut the gate, and then returned to the house, thinking the little fellow was safe. Twenty minutes later Henry Shafer, a farm hand employed on the Stickle farm, returned from Elwin and in passing through the yard discovered the boy, who had fallen into the jar head foremost First aid was administered and a physician was called from Decatur and one from Mt. Zion. Within a short time the lungmotor was in use, but it failed of its purpose.

Coroner Roy Dawson held the inquest Sunday evening. The verdict was that death was due to accidental drowning.

He is survived by two children, Mrs. Maud Brown of Colorado Springs, Colo., and Cloyd Burford of Urbana. There also is one surviving brother, James Burford of Farmer City.

Funeral services were held in Farmer City Sunday afternoon and burial made there,

BURIAL IN DALTON CITY.

Nicholas Hickey, well known in Clinton as the husband of Miss Anna Lovett, died in Ft Dodge, Ia., Friday, following a brief illness.

The remains were taken to Dalton City Sunday and burial will be held at that place Monday. He was thirty-eight years of age and was united in marriage to Miss Lovett at Bement, Jan 18 1920

He is survived by the wife and a daughter

LOCAL MAN APPOINTED.

Edward H. Ellis connected with the Clinton post office for the last several years and commander of the Craig-Bennett Post, American Legion, has received an appointment from the department of public buildings and roads as highway patrolman. The appointment was made by Governor Small and endorsed by C R. Miller Mr Ellis probably will begin his duties on Wednesday of this week and for the present will be stationed near East St. Louis but has been promised that his transfer to this vicinity will be made as soon as the roads are completed through Clinton The appointment was made through the recommendation of Representative E B Bentley.

AUTO CRASHES INTO JOHN DIPPER BUGGY

Mr. Dipper Not Seriously Injured In Hard Road Accident.

More speed on the new hard road west of the city, according to witnesses, was the cause of an accident Sunday night in which Michael Krutton proprietor of the Liberty restaurant, crashed into the rear end of a buggy driven by John Dipper. Fortunately, Mr. Dipper's injuries were not serious, according to report from the Decatur and Macon County hospital, but the buggy was smashed and the horse had not yet been found Monday morning.

The accident happened last at the west edge of the city about 10 o'clock as Mr. Dipper was leaving one of his places to drive to his home a mile or two on west. Krutton is said to have come from the east and behind Dipper at a good rate of speed. After the accident, he picked Mr. Dipper up and took him to the hospital, Monday morning, it was reported that the injured man had sustained no fractures.

WILL SAFEGUARD DEEP SEA TRAFFIC

Washington, April 10—Definite steps towards "doubling tracking" the North Pacific ocean to avoid dangers of congested steamship traffic have been taken by the hydrographic office of the navy department. Cooperation of the Japanese, Canadian and British naval and steamship authorities has been sought, it was learned Sunday and data is accumulating on which a decision finally will be made

FURNITURE BEAUTY RESTORED

Follow the Same Method as Used by a Famous Furniture House

The method used by the famous Tobey Company to clean and maintain the finish of fine furniture is that of an old secret shop formula, now given to the world in the form of Tobey Polish. A little on a cheesecloth duster works wonders. All dirt and finger marks are removed and the original lustre restored in the one simple operation. Try Tobey Polish on your furniture, and see the big difference. 30c, 60c, $1.00, $1.75 and $3.00, everywhere.

APRICOTS DAMAGED BY HEAVY FROST

San Jose, Calif., April 10.—Heavy frost did much damage to the apricot crop of this section Sunday. Smudging was resorted to in a number of orchards, but even this was unable to save all the crop in some places.

AMUNDSEN STARTS OCEAN-OCEAN TRIP

Central Park, N. Y. April 10—Captain Roald Amundsen, arctic explorer, hopped off in an all-metal monoplane today for Cleveland in the first lap of a transcontinental flight which eventualy will take him to Seattle, Wn., where he will leave June 1 for adrifting voyage in the north polar regions.

Pressure on Lungs Caused by Gas

Often a dull, full feeling in chest is caused by gas from undigested food pressing upwards towards lungs. Sometimes gas presses on heart and is mistaken for heart trouble. Simple buckthorn bark, glycerine, etc., as mixed in Adlerika, expels gas and stops pressure almost INSTANTLY in many cases. Removes surprising matter from BOTH upper and lower bowel which formed gas and poisoned stomach. Adlerika is EXCELLENT to guard against appendicitis. The Decatur Drug Company.

Wallace-Fitted GLASSES

are a mark of distinction.

They attract favorable attention because they are so neat and comfortably fitted —your friends speak of them.

Not the gaudy kind—with lenses large enough for auto head-lights.

Governor, Mayor, Cabinet Member's Daughter—All Radio Fans

Every day radio's attracting fresh recruits from the ranks of the famous. Here are three of the newest ones

The young lady is Ruth Wallace, youngest daughter of Henry C. Wallace, secretary of agriculture. She's shown using the radio set she has had installed in her home at Washington

W. C. Sproul, governor of Pennsylvania (upper inset), is an ardent fan, too. Here you see him making a speech by radiophone

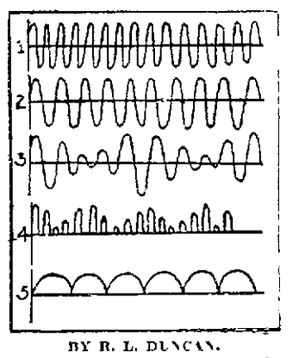

Mayor J. H. Moore of Philadelphia (lower inset) is another radio speech maker. Picture shows him telling hearers in Pittsburgh and Chicago why they ought to live in Philadelphia.

RADIO PRIMER.

RESISTANCE—This means the property of bodies which opposes the flow of electrical current. Just as water passes less easily through a small, long pipe than through a large short pipe, so an electric current encounters considerable resistance in passing through a wire of great length and of poor conducting quality. And the current encounters less resistance in passing through a short wire that is a good conductor.

DAMPED WAVES WILL BE ABANDONED

BY R. L. DUNCAN.
Director, Radio Institute of America.

With the rapid strides in the advancement of radio, the discontinuous or damped waves are going by the board. Transmitting stations are using direct current for their source of power and their waves go out in continuous flow.

These continuous or undamped waves are generated for the most part by vacuum tubes, although the transatlantic stations of the Radio Corporation of America employ the Alexandersen radio frequency alternator and the United States navy uses a direct current arc generator. But the large broadcasting stations use the vacuum tube.

On account of the different characteristics of the two types of waves, the ordinary crystal receiver cannot receive the code signals sent out by stations employing direct current or continuous waves.

The frequency of the current even after being rectified by the detector and passing through the head phones, is above audibility. No sound is heard except the opening and closing of the circuit.

CAN'T HEAR CODES

While one may hear radio telephony on a crystal detector set, he cannot copy continuous wave code message on it. The broadcasted sound is sent out by radio frequency wave motion termed the carrier wave.

This is modulated at an audio frequency by the phone into which the operator speaks. Code messages sent out on a continuous wave do not enjoy the same advantage.

For the amateur desiring to listen in on all code signals as well as broadcasted music and lectures, the regenerative receiving set, should be used.

As the continuous or undamped waves come through the air, they are received on the regenerative circuit in form of diagram 1.

No. 2 represents the local waves generated by the vacuum tube in the regenerative set.

No. 3 shows the difference of the two applied frequencies, represented by 1 and 2.

No. 4—The rectified beat currents.

No. 5—The telephone current.

PRAISES WORKERS AT BEARDSTOWN

Laud Heroism As Levee Still Holds Firm.

Beardstown, Ill., April 10—Heroism of workers, who in the last few days have stopped with their bodies the breaks in the levee protecting the city, was this morning given official recognition by Mayor Wesley Perry, whose earlier predictions that the levee cannot last, witnessed the second morning of non-fulfilment. Mayor Perry expected the levee to burst Saturday night.

SLIGHT RISE.

Springfield, April 10—Water in the Illinois river at Beardstown and at Naples, where levees are in momentary danger of giving way, this morning had risen two inches since 6 o'clock last evening, according to word received by Adjutant General Carlos Black from Colonel Stephen O. Tripp.

PREDICTS CREST.

"The highest water is expected between noon and 3 o'clock this afternoon," General Black said "workers at Beardstown have increased the heighth of their levee six inches and have almost exhausted their supply of sand bags and are now looking for more."

COAL PILE STILL BURNS AT KINCAID

Kincaid, April 10—The huge coal pile near the big electric power plant is still burning and spreading, notwithstanding for several days the C. I. P. S. has had two or three streams of water constantly pouring on it in an effort to quench the fire.

At the present time it appears as though at least one-fifth of the stock there has been burned. The company is making arrangements to reload the coal on the cars and move it to other points until it is needed at the plant. If this is done, some of the coal may be saved.

SERIOUS SITUATION.

The situation is looked upon as serious for if the coal is destroyed many Illinois cities will be without electric light and power.

WIFE OF ACCUSED TELLS ARSON PLAN

Says Husband Was to Set Fire At Monticello.

Monticello, April 10—Mrs. Lossie Coakley testified Saturday in the trial of Clinton Warner, indictment for conspiracy to burn and defraud, that her husband, brother-in-law of Warner, was to burn the Warner house in this city some time before Christmas. He was to commit the arson when the wind conditions were right, so that smaller buildings on the lot would not be ignited.

The testimony of Mrs. Coakley included the statement that the Warners, who a short time before had moved to Indiana, leaving Coakley to look after a small amount of furniture that had been left in the house, knew nothing of the fire until they read of it in a newspaper. Mr. Warner left immediately for Monticello.

ONCE CONVICTED.

Warner was tried and convicted a few weeks ago on a charge of burning his barn last October. A motion for a new trial is pending in that case.

He also is charged with the burning or the cause of the burning of his house, Dec. 21, 1921. It is alleged that Warner's brother, Lossie Coakley, set the house on fire. The Warners, accompanied by Mrs. Coakley had moved to Indiana to make their home and were not in Monticello at the time of the fire.

THE JURORS.

The jurors who are hearing the Warner case are C. E. Weakley, Cerro Gordo township; Russell Hill, Bement township; S. E. Brandenburg, Cerro Gordo; L. E. Berlepine, Bement; Orville Landis, Cerro Gordo, Max Baker, Willow Branch, William Roth, Blue Ridge, James Ensign, Willow Branch, Guy Sperrow, Goose Creek, Lester Nickell, Blue Ridge; Earl Hines, Unity; George Clark, Bement.

Court adjourned at 8:15 Saturday afternoon until Monday morning, when the hearing was resumed.

ENTERTAINED

Mr. and Mrs. Alan Anderson entertained at dinner Friday evening at their home in honor of the latter's mother, Mrs. Mart McIntosh, the occasion being her birthday. Mrs. W. F. Richards of Seymour was an out-of-town guest.

TAYLORVILLE HOLDS WOMAN AS BEGGAR

Is Believed to Be Professional Mendicant.

Taylorville, April 10—A woman giving her name as Mrs. John Conners of Stillwater, Minn., has been arrested here and is held on suspicion. She is forty-two years old, and apparently is a professional beggar. She claims to be the sole support of two children, and at times makes use of crutches. In one part of town she was walking on the crutches and represented herself as unable to work. In another end of the city she was seen to be carrying the crutches, and walking.

The woman is known to have sent three money orders to a man in Minnesota, one of them for $100. Investigation has revealed the fact that the man to whom the money orders were sent had a police record.

The building occupied by Philip Schneider went to W. B. McBride for $7,145.

PREFER RED HAIR IN RADIO SERVICE

New York, April 10—Red hair and large ears, instead of being a drawback, are an asset—that is, if young men thus equipped desire to become wireless operators. This was made known Sunday in connection with a call for 150 to attend a naval militia radio school, when naval recruiting officers said applicants so qualified were especially desired.

Red hair is an aid to alterness, it was said, while ample ears aid in tuning the instruments. The school, open to civilians, starts Monday night aboard the U. S. S. Illinois, training ship for the first battalion, naval militia.

VIGOR RESTORED BY DRUESEN-KRAFT GLAND TREATMENT

After Trying So Called Tonics For Years Without Results, Decatur Merchant Is Restored to Health Through Gland Treatment.

"For the last five years I have had terrible dizzy spells at times, my head and back continually ached, it was impossible at all to attend to my business and I thought I would lose my mind over the strain. I grasped at every straw, took every advertised medicine which promised to do something but they all either did nothing at all for me or gave me a temporary stimulation which left me worse afterwards than before.

Dr. ——, whom I consulted in desperation advised me to try the DRUESEN-KRAFT (Youth Gland) treatment with which he has had such splendid results and am pleased to notify you that after two months treatment, according to directions my health is considerably improved. I haven't had a headache or backache for the last six weeks and even a stomach ailment of long standing is disappearing. If the next few weeks treatment will go anywhere near what they have done so far I shall be a well man one month from now. It is amazing to me to think that these little glands can control my health and strength. The proof of the pudding is in the eating and your DRUESEN-KRAFT treatments have certainly restored my health. I shall be glad to talk to anybody you or your local doctors or druggists refer to me as I feel this is the least I can do in reciprocation of what you have done for me. DRUESEN-KRAFT tablets will always be in my home."

(Signed) Albert Blickley, Decatur, Illinois.

This is just one of many similar cases reported by doctors and users. DRUESEN-KRAFT (Youth Gland) is the most effective rebuilding and rejuvenating tonic ever known! Bought here from Europe a year ago. DRUESEN-KRAFT already has the enthusiastic endorsement of thousands of doctors and users. Men and women suffering from ailments of many years' standing have been entirely restored to health and vigor thru this remarkable discovery. Make the test yourself; you will be amazed at the surprising result when health and strength will be restored and increased. Ask your druggist or send your name for free booklet on "DRUESEN-KRAFT the Glands and Their Control of Health and Strength." Compounded in tasteless form. One week treatment $1.25 is sufficient to start. Designate whether you wish 'Male' or 'Female.'

IT RESTORED HER AFTER ALL ELSE FAILED

Her Whole System Was Built Up By Tanlac And Five Years Of Suffering Was Soon Overcome, Declares Little Chicago Woman.

"The way Tanlac has helped me after everything else failed is more than I can understand," declared Mrs. Edna Johnson, 113 East Chicago Avenue, Chicago, Ill.

"For nearly five years, I had attacks of sick headache and suffered so much I just had to stop my housework and lie down for hours at a time. I often had sharp, knife-like pains in my back, and if I stooped over, I would get dizzy and nearly fall in my tracks. I got so badly run down and my entire system was so disordered I hardly knew which way to turn for relief.

"Hearing Tanlac praised so often, I decided to try it. After taking three bottles, my strength has been built up; my headaches are gone; my back never pains me, and I feel so good I enjoy every minute of my life. Tanlac has certainly made me a healthy and happy woman and I can't praise it enough."

Tanlac is sold by the Quaker Drug Co. and leading druggists everywhere.

158 Merchant St.

BEGIN HERE TODAY

In the summer of 1914, MARK SABRE finds that he is estranged from human sympathy and understanding with the sole exception of LADY NONA TYEAR, an old sweetheart, now unhappily married.

Sabre's prosaic and snobbish wife, MABEL, fails to understand her husband's poetic and whimsical temperament. In business he is undermined by jealous associates in the firm of Fortune, East and Sabre and a promised partnership is diverted from him to TWYNING. At this point, Nona's life with Tybar becomes intolerable and she asks Sabre to take her away. War is declared and Sabre rushes to secure a commission. He speaks to Colonel Rattray of the Pinks but is rejected because of a bad heart.

GO ON WITH THE STORY

Extraordinary the intensity of his searching suspicious stare! Hard, stupid old man, Sabre thought. 'Dash it, does he suppose I've got designs on the girl?' He would have returned an impatient answer had he not been so anxious on the Perches' behalf. Instead he said pleasantly, 'Of course she's not, Mr. Bright. Mrs. Perch is a very old friend of mine and a very simple and kind old lady. There'll be only herself for Effie to meet. And she'll make a daughter of her."

Nothing of the penetration abated from the deep-set eyes, nor came any expression of thanks from the stern, pursed mouth. "I'll take my girl over and see for myself, Mr. Sabre."

Surly, stupid old man! However, poor young Perch! Poor old Mrs. Perch! The very thing, if only it would come off.

It came off. Sabre went up to Puncher's Farm on the evening of the day Mr. Bright, "to see for himself," had called with Effie. Young Perch greeted him delightedly in the doorway and clasped his hand in gratitude. "It's all right. It's fixed. She's coming. I could see she took to the girl from the start."

"By Jove, you can't think how grateful I am to you, Sabre."

CHAPTER V.

I

THIS frightful war! On his brain like a weight. On his heart like a pressing hand.

Blowing about the streets, in the newspapers and at meetings, in the mouths of many and in the eyes of most was the new popular question, "Why aren't you in khaki?" The subject of age, always shrouded in a seemly and decorous modesty, was suddenly ripped out of its prudish coverings.

That was in the third month of the war. But by June, 1915, the position on these little points had hardened. In June, "Why aren't you in khaki?" was blowing about the streets. Certain men avoided one another. And in June young Harold joined up. Sabre greeted the news with very great warmth. "By Jove, I'm glad. Well done, Harold. That's splendid. Jolly good luck to you."

Later in the morning Twyning came in. His air struck Sabre as being deliberately aggressive. "Well, Harold's gone," he said.

"Yes, I'm jolly glad for the boy's sake I was just congratulating him. I think it's splendid of him."

Twyning breathed heavily through his nose. "Splendid? Hurl Well, he's gone now and I hope you're satisfied."

Sabre turned in his chair and questioned Twyning with puckered brows. "Satisfied? What on earth do you mean—satisfied?"

"You always thought me ought to go. My boy saw it."

"You're talking nonsense. I've never so much as mentioned the subject to Harold."

Twyning always retracted when Sabre showed signs of becoming roused. "Ah, well, what does it matter? He's gone now. You wait till you've got a son, then you'll think differently perhaps. You don't know what my boy means to me. He's everything in the world to me. I got him in here so as to have him with me and now this cursed war's taken him. You don't know what he is, my boy Harold. He's a better man than his father? I'll tell you that. He's a good Christian boy. He's never had a bad thought or said a bad word."

Not very long after this incident occurred another incident. In its obvious aspect it was also related to the "Why aren't you in khaki?" question; Sabre apprehended in it a different bearing.

One morning he stepped suddenly from his own room into Mr. Fortune's in quest of a reference. Twyning and Mr. Fortune were seated together in deep conversation. They were very often thus seated, Sabre had noticed. At his entry their conversation abruptly ceased; and this also was not new.

Sabre went across to the filing cabinet without speaking.

Mr. Fortune cleared his throat. "Ah, Sabre. We were just saying what a very deeply unfortunate thing it is that none of us principals are of an age to do the right thing by the firm by joining the army."

"Yes, it's a pity," Sabre said.

"I'm glad you agree. I knew you would. For myself, of course, I'm out of the question. Twyning here is getting on for forty and of course he's given his son to the war. You—of course, you're married, too, and there we are! It does, as you say, seem a great pity."

Sabre spoke very slowly. Most furious anger was about to burst when there had suddenly come to its control the thought, "These two aren't getting at you for any love of England, for any patriotic reason. Theirs is another reason." He said very slowly, "I never told you, perhaps I ought to have told you at the time, that I was refused for the army some while ago."

Twyning spun around from the bookcase. "Really? By Jove, and you look fit enough, too, old man. Fancy—Jolly sporting of you. Fancy—Oh, I say, old man do let's have a look at your paper if you've got it on you."

Sabre was at his door. "What paper?"

"Your rejection paper, old man. I've never seen one."

"I haven't got one."

"Not got one! You must have, old man."

"Well, I haven't. I was seen privately. I'm rather friendly with them up at the barracks."

"Oh, yes, of course. Wonder they didn't give you a paper, though."

"I SAY, THEY'VE REJECTED ME!"

Sabre paused on the threshold. He perfectly well understood the villainous implication. Vile, intolerable! But of what service to take it up?

II

In August, the anniversary month of the war, he again offered himself for enlistment and was again rejected, but this time after a longer scrutiny; the standard was not at its first height of perfection.

He was enormously cast down by his rejection. When he got back that night he went straight in to her. "I say, they've rejected me. They won't have me." His face was working. "It's that cursed heart."

She slightly puckered her brows. "Oh—d' you know, for the minute I couldn't think what on earth you were talking about. Were you rejected? Well, I must say I'm glad."

He said flatly, "Why are you?"

"Well do just imagine what you'd look like in private soldier's clothing!" She laughed very heartily again.

He turned away.

CHAPTER VI

I

UP in his room he began a long letter to Nona, pouring out to her all his feelings about this second rejection. He was writing to her—and hearing from her—regularly and frequently now. It was his only vent in the oppression of these frightful days. She said that it was hers, too.

In her letters she always mentioned Tony. She wrote to Tony every day, she told him; and there were few of her letters but mentioned a parcel of some kind sent to her husband. Tony never wrote.

She once or twice said, without any comment, "But he is writing often to Mrs. Stanley and Lady Grace Heddon and Sophie Basildon and I hear bits of him from them and know he is keeping well. Of course I pretend to them that their news is stale to me. I feel most frightfully that the best thing every woman can do in this frightful time is to do all she can for her man out there, and Tony's mine. When this is all over—oh, Marko, is it ever going to be over?—things will hurt again; but while he's out there the old things are dead and Tony's mine and England's—my man for England; that is my thought; that is my pride; that is my prayer."

And a few lines farther on, "And he's so splendid. Of course you can imagine how utterly splendid he is, Lady King-Warner, his colonel's wife, told me yesterday her husband says he's brave beyond anything she could imagine. He said—she's given me his letter—'the men have picked up from home this story about angels at Mons and are beginning to believe they saw them. Tybar says he hopes the angels were near him, because he thought he was in hell, the particular bit he got into, and he thinks it must be good for angels, enlarging for their minds, to know what hell is like! As a matter of fact, Tybar himself is nearer to the superhuman than anything I saw knocking about at Mons. His daring and his coolness and his example are a byword in a battalion composed, my dear, with the solitary exception of the writer, entirely of heroes. In sticky places Tybar is the most wonderful thing that ever happened."

"Can't you imagine him, Marko?"

II

On the following day Tidborough, opening its newspapers, shook hands with itself in all its houses, shops and offices on its own special and most glorious V. C.—Lord Tybar.

Tybar's V. C. was the first thing Sabre spoke of to Nona when, a fortnight later, she came down and he went up to her at Northrepps in the afternoon. Its brilliant gallantry, rendered so vivid to him by the intimacy with which he could see that thrice attractive figure engaged in its performance, stirred him most deeply. He had by heart every line of it's official record in the restrained language of the Gazette.

. . . The left flank of the position was insecure, and the post, when taken over, was ill prepared for defense . . . When the battalion was suffering very heavy casualties from a 77mm. field gun at very close range Captain Lord Tybar rushed forward under intense machine gun fire and succeeded in capturing the gun single-handed after killing the entire crew . . . Later, when repeated attacks developed, he controlled the defense at the point threatened, giving personal assistance with revolver and bombs . . . Single-handed he repulsed one bombing assault . . . It was entirely owing to the gallant conduct of this officer that the situation was relieved . . .

Oh, rare and splendid spirit! Fortune's darling thrice worthy of her dowry!

SIDNEY LANDON FOR CITY CLUB

Impersonator to Come Tuesday Evening April 18.

Sidney Landon, impersonator, will give a performance before the City Club on Tuesday evening, April 18, in the Y. M. C. A. annex. Because of the many competing activities this meeting which was to have been held last Thursday evening was postponed until the above date.

Officers will be elected at the annual meeting of the club Wednesday afternoon in the Y. M. C. A. annex.

A SCRAMBLE FOR THESE EGGS

Some businesses may be a little dull these days, but there doesn't seem to be a thing the matter with the chicken industry.

Incubators and other types of chicken real estate are selling with a snap and bang. An ad in the Poultry Supplies column of The Review has just sold an incubator for Mrs. Runyan, 1544 North Clinton street in a surprisingly short space of time.

Another little ad in these columns sold all the setting eggs which Mrs. Runyan was willing to part with.

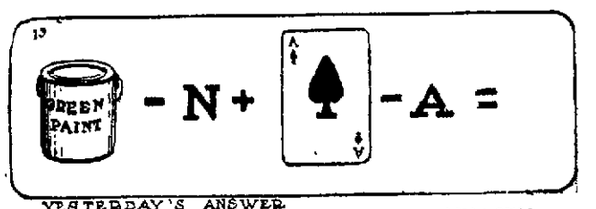

The Review sells houses—chicken, and dog apartment. Try it and see. Call Main 551 and ask for an ad taker.

GEORGE'S BIGGEST TASK.

The European conference at Genoa is booked to open today We are told that this meeting is the work of Lloyd George, so we may at least expect the sessions will be interesting. Also it is hoped that something of consequence will be accomplished, for the world is much in need of it.

We learn from George N. Barnes, British Parliament correspondent, that the "crux" of this Genoa meeting is Russia. For weeks we have been hearing more about Germany's part in this conference, but the big thing they hope to accomplish is to get something done in and for Russia.

Of course the world can't be sure that Lloyd George can accomplish this; one suspects it is a little the largest undertaking he has tried on so far. The soviets of Russia are a bad lot, thoroughly unsound at the core, and it is hard to get anywhere when one must deal with people of this kind.

And yet it is pretty well agreed all along the line that it is essential that Russia be got back on the map of world's trade relations. Until this is done there isn't much hope of doing anything worth while in central Europe. If Russia can be brought back into line there is a chance for all Europe to go ahead and do things.

Here is trusting and hoping that Lloyd George will be at his very best for the coming few weeks.

ALL BY WAY OF PENANCE.

Possibly it has shocked some good people to read of the dinner functions that are to be held in Washington this week, Holy week. It may be well to reconsider, and then perhaps the feeling will be changed.

These functions are a way official Washington has to do penance. The sinning being extensive, there is need of a great many functions If a person of prominence in Washington really wished to give himself a week of vacation and thorough enjoyment, the first thing on his program would be to cut out all these functions for the time. Then he could have some moments of his own, to be spent as pleases his fancy; that is he could enjoy himself and have the makings of a good time.

But when he is sticking to the straight and narrow path, mortifying himself for the sins of the flesh, he goes to a dinner party every night of the week. These feasts are written up as enjoyable affairs, but all this is the delicate irony of the reporter. When we get all this straight in our minds we shall not worry about the time or season that repentance is practiced.

MOVIES WOULDN'T TOUCH IT.

Out in Oklahoma City Judge Day killed Lieutenant Beck, and now there is a disposition in many newspaper offices to make this the leading first page story, something that threatens to keep up for quite a while. Hollywood may rejoice in this development, for it now has a chance to drop out of the limelight and take a little needed rest.

It is unfortunate that this Day-Beck case should be made a feature for entertainment of the entire country. One can understand why it should be a matter of large moment in that immediate neighborhood in Oklahoma, but there is about the case and the principals nothing that justifies spreading the story at great length before the entire country.

Think of the howl that would go up if this case were dramatized and then screened by the movies and put on general exhibit. Everywhere we should have people to insist such pictures will not do, also that they are not justified by any intrinsic importance that can be attached to the story. In fact the movie people would not think of putting on such a show.

Others who don't hesitate to put it on have been known to devote part of their spare time to denunciation of the movies for the mischief they are doing. We are a queer lot, sometimes all of us.

IF SHE LIKES IT BOBBED.

In Philadelphia somebody got worried because teacher was appearing before her classes with hair bobbed. They took the matter to Mr Broome, superintendent of schools in that town. Here is his verdict:

"Whether a teacher wears long hair or short hair has nothing to do with her fitness—all that we require is that teachers dress neatly and modestly."

One judges that Philadelphia has as school superintendent a man of sound sense and reliable judgment. If bobbed hair is becoming to a teacher, why should she not wear it that way? If she thinks it is becoming to her, let her use and enjoy her own judgment in the matter It is very much her own affair

Most men have been wearing the hair bobbed for a great while, or even shorter than bobbed. There is never a suggestion that this makes them morally dangerous One may not care specially for bobbed hair on a woman's head, but then another may like it. One may like it on some and not on others. It is a matter of personal taste, and this isn't something to be legislated or regulated.

THREATS KEPT ON TAP.

Before the house at Washington there was an amendment, offered by a Kentucky Democrat, to forbid the use of any portion of certain money, appropriated for the department of justice, to prosecute organizations or agreements touching wages or hours of labor. The amendment was defeated.

Immediately notice was served that congressional elections are to be held this fall and that gentlemen who voted against the amendment may expect wrath to descend upon them and bury them. In this instance the vote and the plain threat were all in one breath.

It is the way we have these days of going about forcing legislation. If a representative doesn't vote this way on a measure he is told he will be defeated; and tomorrow he hears the same touching some other measure. It is almost the burden of the story we have from Washington these days

It may be the time will come when the country will feel the need of a constitutional amendment providing that a member of congress shall serve only one term.

S. O. S. FOR CHAUTAUQUA.

Perhaps several have pondered the question whether or not the chautauqua has just about run its course. Occasionally we have a story that one of these organizations is in financial difficulties, which means that expenses were not taken in at the gate and from concessions. If these meetings can't be made to pay their way and keep they will have to go by the board, for there is no mention of a movement to endow them.

This time the story is that the Weldon Springs chautauqua near Clinton is having rough going. It was popular for years and many of us looked on it as well rooted and pretty sure to endure. But there now is talk that it may go the way of the late Eli Uiery's Woodbine. And then there is the story of like troubles at Lithia Springs near Shelbyville.

The only explanation we find offered is that too many old patrons have found other means of entertainment and improvement. A lot of free work was done for these meetings, but it seems this isn't always enough to make a good thing go.

MIGHT COME IN HANDY.

Some members of the legal profession are puzzled by an agreement reached in Waukegan, that for the purpose of the governor's trial no jurors are to be taken from the township in which Zion City is found. The only explanation we found in the papers is that Zion voted against Len Small for governor.

But there are other features in this situation. In Zion are hundreds of people who believe the earth is flat, that the moon is a cheese, and that the law of gravitation is only bunkum

It is plain that in Zion are to be found people of strange talents and freakish beliefs. There is always the chance that some of these might be used to advantage in the trial of the case. It is true that one of them can be depended on not to take the same view as do other men, but there is the possibility that even this feature might come in handy and be an anchor to windward for one side or the other.

At least, with a man from Zion on the jury, a lawyer might figure there is no chance of a verdict against him.

MAY NOT BE HIS SAY.

A judge in Arkansas has disbarred "forever" from jury service twelve men in that state who failed to find a verdict of guilty in a bootlegging case. Some of the disbarred ones are said to be men of prominence in the community.

But does a judge have it in his power to proceed in this drastic fashion? One can imagine a judge taking the stand that certain men shall never serve as jurors in his court; but it is hard to see how he has anything to say about it when it comes to other courts.

If judges have such extraordinary powers in Arkansas they should be taken away.

It was inconsiderate and thoughtless of that janitor to go away and die after burning the bank papers—all of us would like to have a look at him.

With all else that is doing in Oklahoma at this time, it isn't easy to understand how a tornado found even standing room.

The forecaster says, "Unsettled, but generally fair," knowing there isn't anything in weather stunts beyond us.

Anyhow, we have every reason to expect that pastures will bump themselves and help save the day.

The miner who has gone to Europe for a vacation must figure on at least three months for this strike.

We have just about exhausted what we thought was an abundant supply of jobs for a rainy day.

And just think we shall be able to forget all about this spell of weather after a few days of sunshine.

Russians think the I. W. W. are running our country—and they sometimes do in Chicago.

Prior to this we heard of such roads in Illinois, but never before in the month of April.

This time we are getting in our six weeks of rain before Easter.

INDULGENCE.

My judgment wisely counseled "no."
And yet he pleaded with me so
I bought the candy that he asked
and let him eat his fill;
Indulging thus his childish whim, endeavoring to be good to him,
That night I learned my foolish
love had made him very ill.

Who would be kind must first be wise.
In childish pleas much danger lies,
They cannot know and understand
what older minds have learned;
Who, just to please a boy's desire, permits the lad to play with fire
Shall find that what he thought
was love has caused him to be burned.

Indulgence is disaster's tool, it is the maker of a fool,
It brings to sorrow, grief and pain
the youth it seeks to please;
Who holds his child in high regard,
And now and then deny to him
what he could give with ease.

Love prompts us all to gratify the whims that wisdom would deny,
And it is easier far to give than to refuse the joy:
But sorrow, hurt and shame and pain,
all follow the indulgent train—
Though "no" is harder for the man,
'tis better for the boy.

Little Benny's Notebook

Me and Puds Simkins and Leroy Shooster went erround after Skinny Martin this afternoon and he was standing in his parler windo looking sad, and us fellows started to yell to him to come out and he opened the windo quick, saying, Shh dont make so mutch toise will you, I aint allowed out because my report was too bad.

And he shut the windo and then quick opened it agen saying, Maybe if you ring the frunt bell and my father tells you wy I cant go out and you tell him your reports was as bad as mine, maybe he'll leeve me go out.

And he shut the windo agen and we rang the doorbell and Mr. Martin came to the door, being long and skinnie and showing who Skinny takes after, saying, Well, I sippose you'd like to know if Allowishes can come out?

Being Skinnies other name, and I sed, Yes sir, can he? and Mr. Martin sed, Not until he brings home a better report.

And he started to shut the door agen, and Puds sed, Well G, Mr. Martin my report was mutch werse than wat his was.

You dont say so? sed Mr. Martin, and Puds sed, Yes sir, twice as bad, and I sed Gosh Mr. Martin, Skinnys report was a good one compared to mine.

Reely? sed Mr. Martin and I said, Yes sir, and Leroy Shoosters sed, And G wizz, Mr. Martin, compared to mine Skinnys report was one of the best in the hole class.

You dont tell me sed Mr. Martin, and Leroy sed, Yes sir, and maybe in the hole skool, and Mr. Martin sed Well then all Ive got to say is, Allowishes must of got that way from associating with you boys and the less he sees of you the better.

And he slammed the door with a slam and us fellows went erround after Sid Hunt leeving Skinny still standing sad in the parler windo.

INFECTED WOUNDS

BY DR. R. H. BISHOP.

Whenever we think of wounds most of us think of danger due to great loss of blood. In ninety-nine of one hundred wounds bleeding is not dangerous.

In every wound there is danger of infection.

In every wound one of two things happens. On the one hand, a wound may heal quickly, with no danger to the patient's life or health. In this case the wound has not become infected.

On the other hand, the wound may become red and angry. It will throb with pain and the patient may have chills and fever. This is an infected wound. Blood poisoning may follow.

Germs cause infection. The germs are not the same as in contagious diseases. In wounds they are called pus forming germs. As in contagious diseases, they do not have it all their own way; the white cells in our blood defeat some of the pus germs and prevent them from doing harm.

Some germs will undoubedly be driven into the body in every wound. Our object should be to prevent the introduction of more.

Fortunately pus germs do not float about in the air, so there is no danger in exposing a wound to the air. They are found on our hands, on knives, scissors, clothing and in water.

Surgeons have found a way to kill them, however. Advantage has been taken of this knowledge to prepare surgeons' gauze that is free from germs.

This gauze is simply cheesecloth that has been put through a special process to kill the germs. It can be bought in any drug store. It should be used to cover every wound, and should be kept on hand in every household.

Never wash a wound, for pus germs are found in water.

Instead, put on a pad of gauze at once, being very careful not to touch that part of it which is to go on the wound.

If you have no gauze and cannot procure any quickly you can take a folded towel recently laundered, and boil it 10 minutes, squeezing out the water, but not touching the surface to go on the wound.

UNUSUAL STORIES ABOUT UNUSUAL PEOPLE

Oklahoma City, Okla.—Mrs. William Chesley Lewis, chief law clerk of the supreme court of Oklahoma, also is marshal of the court. She thinks she's the only woman in the United States holding down such a job in a supreme court.

MRS. LEWIS.

Mrs. Lewis has to call every session of the court to order. Technically, she has to make arrests, too, but she's never been called on to make one.

If the court convenes and a quorum isn't present, the marshal has to hurry out and discover the hiding places of enough of the absent justices to make a session possible.

Mrs. Lewis is a law graduate and has been admitted to the bar.

TALKS WITH TRAVELERS

"What is your real, honest-to-goodness, opinion of Decatur?" was the question put to a traveling salesman, who handles dental supplies.

"Well," was the reply, "I've been making Decatur for perhaps a dozon years and I honestly believe it is one of the most progressive, hustling cities in the middle west, in fact, I should say, THE hustling city of the state.

"One of the most impressive things about your city to me is the window displays of the merchants. There isn't a city in Illinois where the stores have more attractive window displays and decorations. A stranger notes that as one of the first things.

"Yes, sir, I believe Decatur is one of the finest cities I have ever been in and my home is in Peoria, too.

"However, I do have one kick to make. It is a small thing but these minor incidents go a long way toward making up an outsider's opinion of the city. I went over here to a confectionery and bought a malted milk. The check was for twenty cents. Now the accepted price for malted milks in practically all other cities over the state is fifteen cents, not twenty, and so I informed the proprietor that the war is over, and that profiteering isn't being done, nowadays."

Ten Years Ago Today In Decatur

APRIL 10, 1912.

The new debating league formed by Millikin, Wesleyan and Illinois College, disbanded because an agreement could not be reached on a question to be debated.

It was announced that there would be no Niagara Falls excursions during the coming summer.

Residents in the southwest part of the city were again urging the removal of the Wabash St. Louis branch line to some other location.

The contract for the new St. Patrick's parochial school at North and Jackson streets was let to Cope and McDonald.

TWENTY YEARS AGO TODAY.

The inmates of the Anna B. Millikin home were removed to the new home.

The clerks at the Bradley Bros. store were preparing to furnish a room in the new Anna B. Millikin home.

All members of the Decatur baseball team had arrived except one.

Cows were put on pasture and the price of milk was reduced.

The directors of the Wabash Employes' Hospital Association decided to accept the site offered them for a hospital in Decatur.

SUPREME COURT RESUMES ITS WORK

Washington, April 10.—After a recess of two weeks, the supreme court will reconvene Monday with a week-end recess for Good Friday in prospect from the hour of adjournment Thursday.

To Superintendent of Streets.

Decatur has a few street signs left. In some parts of the town some of these "survivors" are hanging by one nail, some are upside-down, some are on the ground. These signs cost the city some money. It seems to me they should be saved if possible. Perhaps some attention should have been given two or three years ago to them but few that are left should be cared for.

Street signs are a great benefit. As long as we can't buy any more let's take care of what we have.

"The Right Man for the Place"

"Next Tuesday, April 11, is the County Primary, and we are to vote to nominate one candidate for a County office, in which every tax payer should be vitally interested, and should vote for one who is qualified as an accountant, to handle your money. Mr. Cooper is an Argenta boy, a graduate from our schools, also from Brown's Business College in Decatur, has had 14 years' experience in the County Treasurer's office as assistant, and we personally feel is the man for the place, and should receive the nomination next Tuesday, if the Republican voters of Macon County vote to their own best interest.

Don't forget when you go to the polls next Tuesday, to cast your ballot for R. M. Cooper for County Treasurer. This is a big job, think of it, the man elected this year will have to handle $3,000,000 of the peoples' money. Don't you think he should be an experienced accountant? We do."

About Town

M. L. HARRY'S motormen-conductors, don't have the pleasantest time in the world, after all—even if they do get to ride around all day Once in a while they run up against an unpleasant experience while in the honest discharge of their duty, as was the case with the director of a Condit car Saturday evening.

At a Water street corner two or three women, one with a babe in arms, boarded the car. The woman with the baby was to pay the fares for the three, evidently, for she stopped just back of the motorman and laboriously counted out three nickels and three pennies, laying them down on a ledge back of the motorman. By this time he had started the car and was busy guiding it through a crowded street, so when the woman turned toward a seat with the remark: "You pick up that money, will you," he replied: "I have both hands busy now."

Whereupon the woman picked up the money and deposited it in the fare box, as passengers are required to do.

The incident did not close there, however, for when the passenger joined her friends in their seats, she regaled them with the whole story and the three of them spent some little time and many words in complaining of the lack of courtesy and accommodation of which this particular man and motormen in general are guilty.

There were those in the car, however, whose sympathies were with the motorman, at least in this particular instance.

REVIEW BUREAU OF INFORMATION

Editor Review:

Will please tell me whether or not there is a premium on a penny dated 1807.

Yours truly,
MRS. G. HOLLEY,
1520 Sangamon street.

The 1807 penny, if in excellent condition is worth one dollar and if in fair condition fifty cents, according to a numismatic catalogue in the hands of one of the Decatur bankers. It would perhaps be well to take the penny to a banker, most of them have these catalogues in their desks, for identification of the coin.

LAKE ATTRACTS MANY VISITORS

Motor Cars Out in Full Force Sunday.

Sunday's bright sunshine brought out hundreds of motor cars, and as will be the case on every bright Sunday from now henceforth, the Decatur lake and the dam had its crowds of visitors.

The water was just creeping over the top of the spillway and the big body of water up stream was in its most attractive aspect as it sparkled in the bright sunshine.

Motor cars were parked along Franklin street and on the approach to the bridge and hundreds of those who preferred walking to motoring tramped about the shores of the lake, sometimes splashing into mudholes.

STUCK IN MUD.

Side roads were impassable, even in town, and one large car on the way to Nelson park was immediately fast in the mud up to the body of the car when it was driven from the solid gravel.

How popular the hard roads will be was shown by the use which was made of the Decatur-Harristown paved road Sunday.

MET 147 CARS.

One hundred and forty-seven cars were met by one man as he drove in from Harristown late Sunday afternoon That six miles of pavement was about as busy as the city streets during the afternoon.

The water level Monday morning at 8 o'clock was at 610.3, this being three-tenths of a foot above the spillway which is at 610 feet above sea level.

DECATUR POSTAL OFFICE WINNER

Leads Ninth District in New Business.

The Postal Telegraph office at Decatur has just been announced as the winner in the ninth district of that company's contest for the office which could show the greatest increase in business between Sept. 1, 1921 and March 1, 1922 over the corresponding period of the previous year. Word to this effect has been received by Thomas Quinn, Decatur boy who has managed the office here for quite a number of years.

The territory classified as the ninth district by the Postal company includes all of Illinois except Chicago, all of Michigan and a few offices in Indiana. It covers about 140 offices including many busy manufacturing centers in both states. Grand Rapids, Mich., is said to have pushed Decatur hard in the race.

As a prize for this record, Manager Quinn will receive a trip to New York with all expenses paid and will attend a banquet to all winners at the Magnetic Club, a club made up of Postal officials This will probably be in the latter part of April but the definite date has not yet been announced.

BERLIN MAN SEES MODIFIED MONARCHY

C. W. P. Heylandt Visits Uncle Rev. William Heyne.

That within five years airplanes will fly from New York to Germany in from ten to twenty four hours, was the prediction made by C. W. P. Heylandt, noted Berlin manufacturer and inventor, who was visiting his uncle, Rev. William Heyne, 1120 East Orchard street, over Saturday and Sunday. Aerial transportation will eventually be universal, he said, at an informal reception in his honor held at the St. Johannes Lutheran church Sunday afternoon.

Mr Heylandt specializes on liquid air and holds 130 patents in this and allied industries. He is in America to make arrangements for the installing of his products in the aviation service of the army. He is a manufacturer of oxygen tanks for aviators.

He discussed the political and economic situation in Germany, stating that he looked for the return of a modified form of monarchial government, similar to that of Great Britain

WILL HOLD EASTER SERVICE AT MAROA

Clinton Commandery, Knights Templar, In Annual Event.

Clinton commandery, No. 66, Knights Templars, will hold annual Easter exercises at the Methodist church in Maroa next Sunday afternoon at 2:30 o'clock. Many members of the commandery live in or near Maroa, and this will be the second time the Clinton commandery has held its Easter services in that city. Rev. W. W. Theobald of the Methodist church, Rev. Mr. Knox of the Presbyterian church and Rev. Mr. Jenner of the Christian church will take part in the services.

Pick Up Third Man.

Shortly after the arrest of John Neuber and Israel Stephens of Springfield for loitering in the vicinity of Church and Decatur streets Saturday night, the police picked up Aubrey Falconburg, another Springfield man for whom they said they had been waiting. One of the men had a black-jack. At 6:45 o'clock Sunday morning two suit cases containing six gallons of white mule were found a short distance from where the two men had been loitering.

RAID FOLLOWS SEARCH FOR BOY

Several Arrested On Disorderly Charge Plead Guilty.

In an effort to locate Stewart Sigmon, a fourteen-year-old boy who ran away from home in New Albany, Ind., April 3, the Decatur police visited the home of Mrs. Ada Lowrey, aged fifty-five, 439 East Cerro Gordo street, Sunday night. The boy was not there, but several other people were and the police arrested Mrs. Lowry for keeping a disorderly house and the others for disorderly conduct.

Mrs. Lowrey pleaded guilty to both charges and was fined $31.15 on the first and $16.15 on the second charge by Justice John T. Lloyd. Jasper B. Smith, fifty-seven, a roomer at the house, refused to plead and his trial is set for April 13. The other inmates were fined $16.15 each. They were Anna Lowrey, sixteen; Fred Lasko, nineteen Edward Lasko, twenty-six; and Pearl Conway, twenty-six, all living at 439 East Cerro Gordo street, and James Young, twenty-two of Salem.

LOOKING FOR BOY.

Theodore Mathes of New Albany, guardian of Stewart Sigmon, was in Decatur a few days ago looking for the boy. He showed a photo of the boy to O. W. McCaughan, who at once recognized it as the picture of a boy he had assisted last Thursday. The boy told him he lived at 439 East Cerro Gordo street, and Sunday night's raid resulted At first the people at the house denied that such a boy had ever been there, but finally admitted that a boy answering that description was there a few days ago, it is said.

Though only fourteen years old, the boy is almost the size of an average man He is five feet, seven inches tall, and weighs 130 pounds and has brown hair and dark brown eyes. When last seen he wore knee pants of brown and tan herringbone check, a cap of the same material and tan shoes His guardian, Theodore Mathes, Silver Mills, New Albany, Ind., has offered a reward of $50 for information that will lead to locating the boy.

"DISAPPEARANCE" OF GIRL NO MYSTERY

Letha Bitter Located At Home of Friend Monday.

The "mystery" surrounding the disappearance of Letha Bitter of near Harristown, aged fourteen was cleared early Monday morning when she was located at the home of a friend at 1735 North College street. Miss Bitter who had been visiting her sister Mrs. C. M. Combs of 429 East Olive street, for two or three weeks, had gone to the Illinois Central station to meet the 12 10 train, on which a friend was coming. The friend did not come and she went back to her sisters home. The family had gone when she reached the house, so she went to the home of the friend on North College street and spent the afternoon and night there.

PRESIDENT JAPAN COLLEGE IS HERE

Miss Susan Searle is Guest of Mrs. H. J. Pettee.

Miss Susan A. Searle, president emeritus of Kobe college, Japan, is visiting Mrs. H. J. Pettee, 923 West North street. She has been connected with this college thirty-eight years and is supported by the Woman's board of Missions of the Interior. Miss Searle is on a year's furlough, having come back to the States in September. She has been visiting Mrs. Pettee since Saturday and expects to leave Tuesday afternoon. Her home is in Niles, Mich.

Kobe college is one of the very few college grade schools for Japanese girls. There is also a high school for girls in connection with the school, where 600 girls are in attendance.

The school is located on the side of a very picturesque hill, but there is such a lack of space since the school is growing that the alumnae of the school have pledged money for the purchase of land to make an addition to the school. This is remarkable considering the limited financial means of most Japanese women. Some departments of the school have already been moved out into the country on account of the lack of space in the school for all studies.

Miss Searle will speak to the Persian class of the Congregational church Tuesday afternoon at 2:30, when it meets in the home of Dr. and Mrs. F. E. Strickling, 1023 West Wood street.

An Expert in Economy.

Boston Transcript: Friend—I don't see how on your income you manage to winter in Florida and summer in Maine.

Stuart: You forget that by that plan I dodge both coal and ice bills.

Be Careful What You Wash Your Child's Hair With

If you want to keep your child's hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply put two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water, then moisten the hair with water and rub it in. It will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months. Be sure your druggist sells you Mulsified.

SPRINGFIELD WOMEN TO ENTERTAIN FOR MISS M'GORRAY

Miss Kathryn Helen McGorray will be the honored guest at an informal tea Thursday, April 20, given at the Springfield Country club, by Mrs. Cortland Stuart and Mrs. John R. Neal of Springfield. About three hundred and fifty invitations have been issued. Miss McGorray is to be a bride this spring. Her engagement to James Fairley was announced the first of the year, and she was honored guest at several parties at that time.

• • •

William Downey was elected president of the Decatur, Ill., Society of Southern California, an organization of former Decatur people who are now residing in California, at the picnic in Sycamore Grove, Los Angeles, Saturday, with three hundred and fifty people present. The other officers elected were Alva Johnson, secretary, and Frank Whitmer, treasurer.

• • •

Mrs. Vere Brownback will leave Tuesday for a week's visit in Chicago.

• • •

Mrs. E. A. Denz and her daughter, Miss Louise, spent the week in Chicago.

• • •

Mrs. A. M. Kenney is the leader for the subject, "Drama During the Restoration," with topics by five other members of the West End Delphian society, at their meeting Monday afternoon at 2:30, in the Millikin auditorium.

• • •

The three one-act plays to be given by the Dramatic Art club of Millikin, under the direction of Prof. Clyde Hart, Monday night in the university auditorium, will be attended by the four divisions of the Woman's club, and the members of the West End and Pines Delphian chapters, with their guests.

Life's Lighter Hours

The Rialto 500 club delightfully surprised Mr. and Mrs. Louis Rucker, 531 East Division street, Saturday evening, in honor of their fifteenth wedding anniversary. The evening was spent in cards and dancing. The prizes were won by Mrs. Don MacMahon and Mrs. Earl Sweeney. Mr. and Mrs. Rucker were presented a set of goblets. The next meeting of the club will be with Mrs. Don MacMahon, April 22, in two weeks.

A family dinner was served Sunday noon in the home of Mr. and Mrs. Z. T. Duncan, 533 North Main street. Those present were L. E. Duncan and family, 1389 North Union street, Mr. and Mrs. J. E. Duncan 1123 North Monroe, Miss Rohima Henderson and Miss Bessie Cochran, of Decatur, and Mr. and Mrs. L. A. Duncan of Pontiac.

Mrs. L. G. Duncan spent the week visiting relatives in Decatur, and Mr. Duncan arrived Saturday evening. They returned to Pontiac, Sunday evening.

WANT ENGLISH TO STUDY OUR PAST

London.—An appeal for deeper and more systematic study in England of American history and institutions has been made by Dr George Peabody Gooch, a prominent political author, before the Society of Experiment and Research in Education at the University College here. One reason for the appalling neglect on this side of American history was, he thought, "the deep and ineradicable conviction that American history was dull."

"People here have a sort of idea," he went on, "that when America became independent she didn't concern us any more, and to this day we know more about the American colonial period than about the period of independence."

"One Good Turn—"

Fashion Notes

By Consolidated Press Leased Wire to The Review

MATCHING SUITS.

Pinehurst, April 10—Sweaters and hats should match in tints, though not necessarily in materials; this seems to be the rule here. A young golf enthusiast wears an Iceland wool sweater ringed with horizontal Napolitan stripes on an orchid ground, a knitted orchid scarf, or a girdle tying at the left side.

Under the sweater which is a slip on, she wears a white crepe de chine blouse with a Peter Pan collar and turn back cuffs. Her hat is corded taffeta, with a rather wide, upturned brim which repeats the sweater colors.

RAINBOW SCARFS.

New York, April 10—There is no smarter accessory for the spring sport suit of tweed or homespun than the new scarf which has arrived in a rainbow glory of colors; one rainbow for each scarf. Of wool, or silk, or the two mixed, a scarf combines stripes of jade, deep blue, orange and black; or it wanders off into white and yellow plaids; or it zigzag from a cerise to gold, from wood brown to henna, from periwinkle to faintest rose.

ELABORATE CAPES.

New York, April 10—Capes are becoming quite as elaborate as the costumes which they cover. Deep bands of heavy lace, dyed to match the cape fabric, give an uneven and a lovely hem line. Panels are fretted with a dozen horizontal rows of little silk tassels in the matching shades, or with an edge of picotted fringe. Beaded or metal buckles close the collars which often are soft wreaths of satin roses.

JESTER PANELS.

London, April 10—Back to Tudor days and the jester's deeply pointed cap and doublet the designer has gone for his latest quirk of fashion. The pointed jester panels are appearing on the back and front skirts, especially on gowns for formal occasions. Emphasized by pointed rows of graduated beads these new panels are surmounted by a beaded girdle which is usually pointed in front and back.

SEVEN CONFIRMED AT ST. PAUL'S

Exercises Take Place at Morning Service Sunday.

Seven children were confirmed at the morning hour of worship at St. Paul's Lutheran church Sunday. They were Ruth Amenda, Corwin Gross, John Keek, Berthold Petrowsky, Lewis Teppe, Elmer Freitag, and Fred Cornwald. Rev. Theodore Lohrmann conducted the morning service, which began at 9:45.

DYE ANY GARMENT OR DRAPERY WITH "DIAMOND DYES"

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods. Diamond Dyes never streak, spot, fade or run.

A Swiss Dot is Sometimes Square

When is a dot not a dot? When it's a tiny square, or a wee circle, or even a minute embroidered rosebud.

They still call the fabric dotted Swiss, but the Swiss, unlike the leopard of Scripture, can and has changed its spots from plain dots to all sorts of adorable little designs.

Not that no round dots remain, however. As a matter of fact, most of the spring Swisses are dotted as of yore. But the newer figure is noted in the finer grades of this ever delightful summer fabric.

Lovely colors abound, almost crowding white out of the running except for confirmation and graduation frocks. Blue with red, rose pink or green dots; soft reseda green with black or white dots; lavender with dark purple dots; brown with golden yellow dots, or vice versa; gray with coral dots; these are just a few of the charming combinations to be found in this season's Swisses, which make the most practical of hot weather frocks.

The organdie family gives every indication of its intention of taking an active part in American social life this coming summer.

Organdie, crisp and pert, is the flapper's own fabric. Nothing more becomes her, nothing so well brings out the slender grace of her young body, as this material. Indeed, only the slender, the young, the bright, should attempt to wear organdie. A stout woman in crisp, outstanding organdie, is simply grotesque. And a faded skin above an organdie frock is very, very sad.

For summer party frocks, the dainty pastel shades are most loved. Orchid is as popular as rose pink, and ciel blue is another favorite. Yellow, in the new dent de lion shade, with a wreath of black-eyed Susans for a girdle, makes one charming organdie frock.

Organdie is much used to combine with dotted Swisses or printed cotton materials for the two-tone or two-fabric frocks so much in vogue just now.

GATTY SELLERS TO COME TO DECATUR

Will Play At First Baptist Church.

Gatty Sellars, noted organist, will be in Decatur next Sunday and will play at the First Baptist church. He will give a full organ concert at 3 o'clock in the afternoon, and will assist the chorus choir with its Easter program at the evening service. No admission fee will be charged either afternoon or evening.

Gatty Sellars is noted as an organist and composer, and has done extensive traveling, appearing in the large cities. He is always enthusiastically received. He is particularly noted for his descriptive effects on the organ. He played in Decatur several years ago.

He is accompanied by Signe Hagen, prima donna soprano, of the Casino Opera, Copenhagen, and American Grand Opera.

Her System.

Exchange: A negro had a family of well-behaved boys, and one day her mistress asked, "Sally, how did you raise your boys so well?"

"Ah'll tell you, missus," answered Sally. "Ah raise' dem boys with a barrel-stave, an' Ah raise' 'em frequent."

"Oh, yes; but he wanted to be sure of justice being done!"

ONIONS A REMEDY

By Sister Mary.

If you are spending sleepless nights this spring try the simple and homely remedy of eating onions!

Make an onion sandwich to eat just before going to ber. The combination of minerals calms tired nerves and induces sleep.

Always prepare onions under water. No odor clings to the hands.

ONION SANDWICH.

Slice onions very thin into salt water to cover. Let stand for an hour. Drain and dry between towels. Mince. Sprinkle with a few drops of lemon juice and put between thin slices of white bread and butter.

Little new onions should be cleansed and allowed to stand in cold water for an hour before mincing. Then mince right on the bread and sprinkle lightly with salt.

ONION SALAD.

Large sweet onions, minced parsley, pepper and salt, oil and vinegar.

Peel onions, cover with cold water and bring to the boiling point. Drain. Let stand in cold water for five or six hours. Change water frequently. Drain and dry between towels.

Slice very thin and arrange on a bed of lettuce, season with salt and pepper and a little vinegar and pour over a liberal amount of oil. Sprinkle with minced parsley and serve.

SPRING ONION SALAD.

Two sour apples, 1 bunch new onions, mayonnaise dressing, 4 stuffed olives, hearts of lettuce.

Pare and cut apples into dice. If tart apples are not to be had let the diced fruit stand in lemon juice to cover for an hour. Wash onions and mince. Mix apples and onions well and add enough mayonnaise to make a moist, creamy mixture. Arrange on hearts of lettuce and garnish with the stuffed olives cut in meat slices.

Did you ever try this? It's not a company dish, but the man of the family will like it after a strenuous day in the open.

Shred leaf lettuce. Cut the tops of new onions in inch lengths. There should be half as much onions as lettuce. Mix well, put in the spider ham was fried in. Cover closely and cook over a slow fire for 10 minutes. Remove cover and add two tablespoons of vinegar. Serve at once as a vegetable.

CREAMED NEW ONIONS.

New onions, 4 squares of toast, 2 tablespoons grated cheese, ¾ cup cream, butter, salt and pepper.

Allow four or five onions for each person. Use all the white part. Peel and boil in salted water till tender. Butter toast, sprinke with a little grated cheese and add onions. Season with salt and pepper and sprinkl with more cheese.

Put in a hot oven just long enough to melt cheese. Scald cream in double boiler and pour three tablespoons over each portion. Serve at once.

HOUSEHOLD HINTS.

Newspapers.

Laying newspapers on the kitchen floor right after you have scrubbed it will prevent the tracking in of dirt while the floor is still damp.

Milk.

It is well to keep the milk bottle cap on the bottle as long as there is milk in it. At least, keep some sort of covering over the bottle to keep dust and dirt from blowing in.

Grease.

Never throw hot grease in the kitchen sink. It hardens as it goes down the drain pipe and stops it up.

Flowers.

Cut flowers will keep much longer if you change the water in which they are kept every morning.

Ice Box.

Wash out your ice box with hot water at least once a week. This will prevent it from giving a bad taste to foods that are kept in it.

Saves Ice.

Wrap newspapers around the ice in your icebox. This will make the ice last much longer and cut down your ice bill.

EVERETT L. DICKEY

Republican Candidate for County Superintendent of Schools

Graduate of rural school 1906; Academy of James Millikin University 1906; teacher in rural school 1906-1907; graduate of College of James Millikin University 1910; Principal of village schools 1910-1914; History teacher in Decatur Junior High School 1914-1917; History teacher in Decatur High School 1917; Principal of Jackson Street School, Decatur, 1918-1919, also several weeks in Normal. Considerable work towards master's degree; holder of a state supervisory certificate; County Superintendent of Schools 1919—.

Educational standards and requirements are rapidly advancing. I feel that my schooling has been of such a nature that I can represent the schools of Macon County without embarrassment. My experience in teaching has not been confined to one phase of the work. I have taught in the rural schools, village schools, ward schools, junior high schools and high schools.

I am running the schools of Macon County to the advantage of the pupils regardless of inconvenience and labor on the part of the office. Many of our Saturdays are given to special examinations and work to help pupils who for one cause or another are behind in their work.

I am emphasizing the teaching of the fundamentals in our schools. Special emphasis is being placed upon reading. Our pupils are good spellers; they are rapidly becoming good penmen. They receive a good strong course in mathematics.

I am certain my interest in the welfare of the pupils of Macon County is excelled only by that of the parents themselves.

ENGINEERS QUIT IN MIDLAND MINES

Forty Men Walk Out Under Orders.

Taylorville, April 10.—The mines in this vicinity, four close to Taylorville and one at Pawree, have been left high and dry without workers, engineers, firemen or anyone else to look after them, through an order received by the engineers calling them out and telling them to leave their posts.

In each mine there were two firemen three engineers, a pumper, face boss and top boss, all of whom have quit. It is said the orders from President Farrington contained the remark that they were going to "give the operators a dose of their own medicine"

It is understood the action was taken when it became known that some of the mines had been using bosses to do construction work in the mines, which is contrary to al union rules.

LINCOLN NO. 2 DOWN 900 FEET

Casing Now Going In; Pumping on No. 1 Steadily.

Lincoln oil well No. 2 has reached a depth of 900 feet. This depth was reached at 10 o'clock Friday morning when the well began to cave and it became necessary to stop drilling. An eight inch shoe was sent for and the drillers are now casing the well to the depth that it has been drilled. An eight inch casing is now being used.

When the casing has been put down 900 feet the well will be underreamed for a further depth of 25 feet and the eight inch casing extended to that depth. At about 1150 feet the present heavy flow of water will be cased out and drilling will again go on rapidly.

The pumping at No. 1 well is going on steadily. The second of the 250 barrel tanks is now nearly filled and the filling of the third tank will begin this week All of the contents of the two tanks are oil. The water has been let out and the company has stored nearly 500 barrels of oil

Pictures of the "bringing in" of the Lincoln well No 1 are being shown at Lincoln Square theater this week

Four Hundred Fans at Staley Field Sunday

Indicates Great Interest In League Ball For Coming Season—Some Show Class.

BY HOWARD V. MILLARD

Over 400 dyed in the wool baseball fans had their first glimpse of a few of Dan O'Leary's recruits Sunday afternoon at Staley field. Despite the fact the fans knew there were only a handful of players in the city and little work was to be done they turned out to the park to see how they looked.

After staging a session of hitting practice which started about 1:45 o'clock O'Leary selected an infield for some work on a slow diamond and at three bells called it a day.

While there wasn't anything going on worth while it marked a new era in Decatur's baseball history for the fans have started to realize that it is their ball club and that upon their support and boosting depends the success of the game in the city. If Sunday's turnout is to be taken as a sample of enthusiasm the game is to have a sound footing in Decatur under the new plan of ownership.

SOME LOOK GOOD

It is too early to pass judgment on a single ball player that Dan has signed up but the fans couldn't help but take a liking to the way some of the boys handled themselves at bat. Of course they were looking at nothing but all sorts of balls but at the same time the old horsehide rode like a bullet after connections were made.

Every train for the next few days is expected to bring in candidates for the club while O'Leary is still burning up the wires to complete his list of players.

ONE DRILL MONDAY

O'Leary staged only one drill Monday ordering the men out at eleven o'clock and they remained at the park until three going through their paces.

If more players arrive on the scene he will stage but one drill a day but that is only expected to be the case until Wednesday at the latest.

The Decatur skipper is very anxious to secure a couple of exhibition games for Saturday and Sunday or at least one Sunday. An attempt was made to secure Danville but they have the Hamilton Ontario club booked. Terre Haute is the next possibility for games.

NO WONDER THEY DIDN'T WANT RAY FOR THEIR TEAM

We thought it was mighty funny that Harry Rush couldn't use Ray Dremer for his Illinois Watches this season but a streamer across the front page of the State Register explains it. "Local Baseball Booster Drive Seems to Need a Pulmotor" the headlines at the introduction of the story on which also explains how the Springfield fans are failing to dig down in their pockets to support a factory ball club. It can't be the Pelletier's league ball to bring out the old civic pride. Here it is.

While there is an increase in the sales shown when the rest of the baseball booster volunteers turn in their reports the drive for 1,000 memberships in the Booster club will not reach its success expected.

Up to the last night only one third of the workers had reported and no more than one fourth of the desired membership had been secured. The goal is 1,000 members at $3 apiece which would give the Illinois Watches $3,000 to start the season.

Pel couldn't figure it out why Dremer didn't take the $630 offer from Clarence Ross and at Columbus. Maybe Clarence or Bobby Quinn of the St. Louis Browns will explain. Did you ever hear of a gent named Landis? He's the reason.

VOLLEY BALL

Emma Cox playing with the Engineers heads the list as having served the ball for the most points in the Union Volley Ball League at the Y. M. C. A. and he shares with P. F. W[illegible] the distinction of having made the highest run of eight straight points before his side was retired.

Following is the list of players who have served for ten points or more in the two matches which their respective teams have played. This week a complete list of all the players will be compiled and posted at the Y. M. C. A. although only those with the greatest number of points will be published.

The records then will also include the number of times a man has served the ball into the net, out of bounds or has stepped across the line thus giving the service to their opponents.

CAP ANSON STRICKEN ON CHICAGO STREET

Veteran Will Be 70 Years of Age This Month—Is In Hospital

Chicago Ill April 10 — Captain Adrian C Anson famous old time manager and captain of the Cubs ball club well known in bowling billiard and golf was stricken on the street Saturday and rushed to St. Luke's hospital where he was operated on for glandular trouble. Reports from his bedside Sunday were that the veteran athlete was resting well and in no serious condition.

Anson will be 70 years old April 17.

M'GINNITY MAY GO TO DANVILLE

Charles O'Day Released By Directors Sunday.

Joe McGinnity although retired from active baseball duty may have a call to help out the Danville club this coming season. Following a meeting in the Cannon town Sunday at which time Charlie O'Day was released from his duties there to go to the Maysville Kentucky team the name of McGinnity was brought forth.

At an early hour this morning Joe had not received any word from Danville but if he can be induced to take up the game again should be able to help out the new entrant in the Three Eye League. Mr Smith of Danville formerly owned the Newark club in the International League when Joe managed it and is a strong admirer of the former Giant star.

There was no reason given for the release of O'Day and Pete Knisely last season with Bloomington will be in temporary charge of the 21 ball players reporting today.

BAIT FOR BUGS

No interest in league ball in Decatur? Did any of the fans who have been saying league ball never did go here and never will ever see 400 fans out to watch eight or ten recruits work out? Maybe they did but the old timers don't recall it.

Any time you get close to 700 fans to dig down in their pockets to subscribe for stock in a fans association it is an indication of interest. If Dan O'Leary assembles a ball club that can handle em all a few will have to change their tune. Its a small few though for most are boosters.

It doesn't take the fans long to pick out the boys once they see them in action. They were pleased the way Lamb, Bourg and Strain handled the old willow Sunday.

Conroy sprained his ankle in making a play at second and had to leave the practice work. It was pretty sore in the evening but is not serious.

Dan received a wire from Holtzhauser Sunday evening from down in swamp East Missouri. The hurler was stranded with washouts on all sides of him.

Price, Lamb, Campbell and Boche act like real hurlers and will make the rest of the crew show their best when all the hurlers get here. Several of the fans picked out Campbell to be Pence the White Sox hurler. He looks like a giant in a ball suit.

There were several shotgun arms in that first bunch at work Sunday. Potter on third, Schaeffer, Bourg and Lamb were all zipping the agate around the paths.

Buster Woodworth worked out with the crew and then packed the old suit roll in preparation to leave for the Evergreen City Monday morning. Dan isn't any fool. He had the hurlers shooting different sorts of balls at Buster Sunday to get his favorite. Any time the former Staley athlete gets one high and on the outside corner in a Decatur Bloomington game it will be an accident. That's his alley.

O'Leary was very much pleased with Schaeffer's work on the infield and expects to land him a good place in a lower class league. If Charlie can hit .250 he will never need to worry about a job. Sure can field and throw.

Bob and Charlie Rushing worked out with the recruits Sunday. Dan expects to give every fellow who wants a trial plenty of chance to show his worth. Stonington does not expect to have a team this season and the Decatur boys haven't signed with any club as yet.

There were plenty of the directors out looking things over Sunday. Mort Penwell, Dr Yates, Ed Mitchell, Tom Nevins, Fred Keck were among those present. Oh yes Jake was there too.

Staley Field was very soft Sunday but with a couple of days good sunshine and Al on the job it will be back to the high standard of last season.

About the hardest job for any of the players this season or at least at the start will be the first sacker O'Leary retains. After watching Otto Pahlman perform for two years the fans will be looking for another one like him. Give up dear folks they don't make em and in any league.

The fact that a fellow who never hit in league ball can step out and be almost certain of a job in the International League speaks well enough for his ability as fielder.

JOLIET'S VETERAN WARDEN IS DEAD

E. J. Murphy, 20 Years At Post, Passes Away.

Joliet Ill., April 10—E. J. Murphy warden of the Illinois state penitentiary here died shortly after 4 o'clock this morning. His death ended 20 years of service as a warden. He had previously served as warden of the prison at Chester, Ill.

He was seventy years old and suffered an attack of heart disease several months ago which was followed by complications that resulted in his death.

He was born July 24 1852. His wife died three years ago. He is survived by a son William Murphy an attorney of this city and a daughter Mrs Henry J Sawyer also living in Joliet.

MUST QUIT FRATS OR LEAVE SCHOOL

Springfield Ill April 10—Springfield high school students who belong to Greek letter fraternities and sororities will probably receive an ultimatum from the school board to end society activities or face expulsion. Dr M G Owen president of the board of education announced Sunday night.

Dr Owen predicted the ultimatum as the result of a ruling by Circuit Judge Frank W Burton last Friday upholding the validity of the anti-fraternity act of 1919.

ST. LOUIS PLANS BIG WATER ROUTE

St Louis April 10—Arrangements for the establishment of an all-water freight service between this city and Texas coast cities were concluded Monday by shippers and traffic officials of the Federal Barge Line Service with George L Taylor, manager of the Gulf States Shipping corporation. It was agreed to open this all water traffic on April 2, beginning with a shipment from New Orleans to be maintained at intervals of 10 days.

It was pointed out at the meeting that shippers using the all-water traffic would save on an average of 30 per cent of the railroad rates.

MOST UNUSUAL HORSE PICTURE OF THE SEASON

Many photographs of spills in steeplechases have come from England this year, but none so thrilling as this. St. Bernard fell over Awbeg in the Grand National Steeplechase at Bechers Brook. The former horse broke his neck, but both jockeys escaped although one was pitched on his head and the other was caught under the falling horse.

GREAT THRONG AT BROWN-CARD GAME

29,000 See the American League Club Win.

St Louis Mo April 10— Playing to the greatest turnout in the history of St Louis baseball an enthusiastic throng measuring up to 29,000 persons the Browns and Cardinals staged a thrilling nine rounder at Sportsman's Park yesterday and the Browns won 6 to 3 to capture the abbreviated spring series three games to one. Their conquest over the Knot Holers marks the fifth in succession as the Cards have not been able to down the American Leaguers since 1917. Ineffective pitching was offset by brilliant fielding plays, timely batting and daring spirits on the runways. It was just the stripe of play that best suited the tremendous gathering and the perfect baseball weather.

FROM BEHIND

For the third time the Browns came from the under dog position to achieve success. They turned this trick in the opening game of the series at New Orleans and again Saturday at Sportsman's Park. Their victory was clinched when Williams two bagger into the right field crowd sent over Tobin and Ellerbe in the seventh and made more certain on Sisler's single which brought in Tobin in the ninth.

The Feathers Blew, Then 'Feathers Flew' in Clinton Sunday

Clinton April 10—Strollers enjoying the balmy spring air in the vicinity of Main street and the Illinois Central track Sunday morning were treated to a prize fight not on the bill. The fun began when C Lester Ross who resides at 409½ East Main street picked a chicken in the back lot for his wife and some of the feathers blew over in the lot of S M Pollock who resides just west.

According to witnesses Pollock resented the insult with a club whereupon Ross dropped the chicken and used Dempsey tactics winning out to the extent of administering a severe beating to Pollock.

The latter has been in the lime light many times and his name is well known in court since he caused a large fence to be erected on the line between his property and the building east several years ago.

No arrests have been made.

RACING NOTES

Billy Barton, Rebuke and the other horses owned by Thomas Monahan president of the Cuban American Jockey Club have arrived in Maryland from Havana. Monahan was shrewd enough to buy the two mentioned a few days before the meeting ended. He won the Derby with Rebuke and played him at 7 to 1 making this animal a gift horse.

The halter brigade is busy at Bowie and after the fifth race last Friday Bribed Voter the winner and Midnight Sun the second horse both well known campaigners changed hands by the claiming route. C B Akers got Bribed Voter and Midnight Sun went to J W Bean.

Major Quin of Louisville has signed an ordinance passed by the City Council taxing everything but the sunshine at Churchill Downs. The track now pays an amusement license of $2.00 a day and the new ordinance will add as much more. One of the new items is $10 a day for each pari mutual machine.

Three Tia Juana owners G Alexandra, J M Black and A L Briggs have shipped their horses to Maryland. They left Friday and will hardly reach their destination within five days. There are no speed marvels in the lot.

North Star III the premier sire at Idle Hour Farm has a classy youngster at Bowie in Better Luck. Saturday this colt won his second race and defeated Forshala a speedy filly from the Whitney stable. In his six starts Better Luck has been twice first twice second and twice third.

There seems to be a belief at Bowie that horses taking part in the bush league meeting at Mobile need not be considered dangerous in Maryland. Grace Maxers winner of three races at Mobile went to the post in the third at Bowie Saturday with about 15 to 1 against her and resented the slight by winning.

Lang continues to be the star jockey at Bowie and Saturday accomplished the unusual feat of riding four winners in a row. Starting with the fourth event he won the remainder of the card with Wellfinder, Bunga Buck, Our Birthday and Attorney Muir. In three of these races the second horse was ridden by Thomas who is a close rival of Lang.

GAME'S SAKE

FOR THE GAME'S SAKE

BY LAWRENCE PERRY

The most important action of the week in the province of sport was the consideration of standardizing and regulating field and track athletics for girls in preparation for their competition in the 1928 olympics.

Scientific supervision of girls sports is essential for the future well being of our race. In this respect we should take much greater care of our younger boy for hundreds of them are ruined by the lack of it in their early athletic careers. Any experienced university trainer knows this.

Girls are going in more and more for sport and they have every right to do so. Don't be afraid they will not be just as good sportswomen as their brothers are sportsmen.

As a frenchman once said when an argument over feminine participation in the olympics came up "We want our women to be beautiful not muscular." Well the right sort of supervised athletics will make them beautiful and strong as well.

BOXING NEWS.

BY FAIR PLAY.

New York — English promoters have lined up a number of boys to meet Johnny Kilbane now in England. If the featherweight champion really wants to box Owen in Scotland a feather well known locally named Mick McAdam is named as a candidate for a ten round go with the Cleveland fighter. Arthur Wyns the European feather champ is another and finally the English want to see Danny Frush go against Kilbane. They have reports over there that Frush was beaten on a foul at the last fight the two had in Cleveland.

BECKETT COOKE

A lot of interest is being taken in the George Cooke Joe Beckett fight in London this week. If Beckett can stow Cooke away as quickly as Carpentier did then Beckett's stock will soar sufficiently perhaps to make the English think he has a good chance against Jack Dempsey.

Guardsman Penwill who having retired from the Army and thus having more time to train is interesting the English fans. His defeats of Tom Cowler and Frank Goddard gave him a rep that has been increased by his victory the other day over Gordon Sims. Penwill put Gordon away with a straight right to the jaw.

DEMPSEY ANXIOUS

Dempsey and Jack Kearns went down to the Aquitania Monday to look over the gymnasium on the big Cunard. Both of them were highly pleased with the facilities and if the boat doesn't up end too much Dempsey should arrive on the other side in fine shape.

Tuesday is sailing day for Jack. "I'm glad I am going" says he. "I am a bundle of nerves and a good stretch of ocean looks good to me. I don't know what'll happen before I get back but I hope to be able to get a few fights and I'll meet any selected provided of course, the terms are not ridiculous."

PREHN ADVANCES GAME AT ILLINI

Wrestling Comes to Front At State University.

Urbana Ill April 10—Paul Prehn wrestling and boxing coach at the University of Illinois has been in

PAUL PREHN.

the grappling game for many years. He began his wrestling career as a youngster in his home town Mason City Iowa and was successful from the very beginning.

He was on the Mexican border in 1916 where he won several regimental matches. Prehn again enlisted in the army when America entered the war and was stationed at Camp Dodge as physical director with the field artillery. When the teams were picked for the Inter-Allied games in Paris Prehn was chosen from a force of 29 million men as America's entry in the 158 lb class.

WINS CONFERENCE TITLES

Coach Prehn came to the University of Illinois in the fall of 1911 as instructor in wrestling and boxing. His teams here have been unusually successful winning the Conference title twice in three years taking the Big Ten title in 1920 and again this year.

He has met such top notch wrestlers as Engle, Parceau, Ryland, Kilonis and Johnny Meyers in the scores of bouts that he has had. Last summer an eye became infected during one of his matches and since then has not been able to get in perfect condition. Although rated as one of the best middleweight grapplers in the game today he prefers his work as a coach in wrestling and boxing.

600 IN TRAINING

Under him these two sports have grown considerably in importance at Illinois. Interest in his work being measured by the size of his classes. In all some 200 boxing and 400 wrestling students are being trained by Prehn. He firmly believes in the future of boxing and wrestling and is an advocate of fair play. He thinks that no sport can develop courage and sportsmanship as readily as boxing and wrestling.

OPAL ARTHUR'S PLEA IS DENIED

Alleged Murderer Is Refused a Change of Venue from Piatt County.

Monticello, April 10.—Opal Arthur, under indictment for the murder of Charles Martin last December, will be tried in the circuit court of Piatt county, rather than in some neighboring county.

This was determined shortly before noon Monday, when Judge George A. Sentel overruled a motion of the defendant for a change of venue from the county in which the crime was committed. He has not yet, however, set the date of the trial, but that it will take place in the near future is indicated by a remark of Judge Sentel a few days ago, when he said he desired to get it over with some time this spring.

FEW AFFIDAVITS.

In urging favorable action on their motion for a change of venue, attorneys for Arthur alleged they could not get a fair trial in Piatt county, because of the intense feeling of prejudice against Arthur on the part of a large percentage of the citizens. In support of their motion they were able, in weeks of hard work, to muster only about forty affidavits, while the state presented several hundred in support of its contention that Arthur could get a fair and impartial trial from his peers in his own county.

BRUTAL CRIME.

The crime for which Arthur will go on trial was an especially brutal one. Martin, about twenty-one years of age, was clubbed to death, repeated blows mashing his skull and beating his brain to a pulp. The body then was taken to a stream near Cisco and, weighted with a cement block, pushed into the water, where it lay five days before being found by a party of searchers.

In the meantime Arthur had been arrested, as he was the last man known to have seen Martin alive. The two were together late in the evening of Martin's disappearance. It developed at the coroner's inquest that Martin had accused Arthur of stealing $150 from him, and threatening Arthur with arrest when he failed to refund the entire amount, part of which he had repaid.

The feeling against Arthur was so intense when the body of Martin was found that he was hurried away to the jail in Clinton, and later to the county jail at Urbana. Soon afterward, however, he was returned to the Piatt county jail, where he is still confined.

OBSERVE GOOD HEALTH WEEK

D. H. S. Plans for Week's Campaign.

Good Health Week starts at the High School Monday. A campaign for the improvement of the health of students will be carried on all this week. Plans have been made to give examinations in the boys' and girls' gym classes, and special attention will be given to instruction in the various classes of the school, as to the proper methods for insuring good health.

DR. W. S. HALL SECURED.

Exhibits have been secured, and will be shown during this week. These health exhibits, coupled with the instructions given, will be the big part of the week's program. Principal T. M. Deam has secured Dr. Winfield Scott Hall, the noted physiologist, to speak in a boys' auditorium and in a girls' auditorium. His talks will be made Wednesday. On Wednesday afternoon a joint meeting of the members of the high school students and the students and teachers of the high school will be held, during which time a number of important talks will be given.

Thursday's auditorium will be given over to a talk on the "Care of the Teath," by Dr. Freidinger, who will illustrate his talk by a motion picture film.

POSTERS MADE.

Posters have been made by the members of the art department and have been posted in the first floor corridor. Such placards as: "Spare the Brush and Spoil the Teeth," "Fruit Juices are the Fountain of Youth," "Don't Speed at Mealtime," "Balance the Day With the Heavy Meal in the Center," and "A Hole in the Screen Means a Whole Lot of Flies," greet the eyes of the student visitors. Numerous other posters have been hung upon the wall, some of which are instructive health bulletins secured bp Miss May Ormsby, physiology instructor of the high school.

HEALTH THEMES.

The real health campaign will be started Tuesday, when students in all classes will have their attention called to the important parts of the week's program. English students at the school will be required to write good health themes, while those in other classes especially those in the physiology groups, will go more into detail in the study of the importance of good health and how to keep it.

Miss Troutman, of the domestic science department, will direct the attention of the students to the importance of choosing the proper foods at meal times and selecting the right sort of diet for the high school boy or girl.

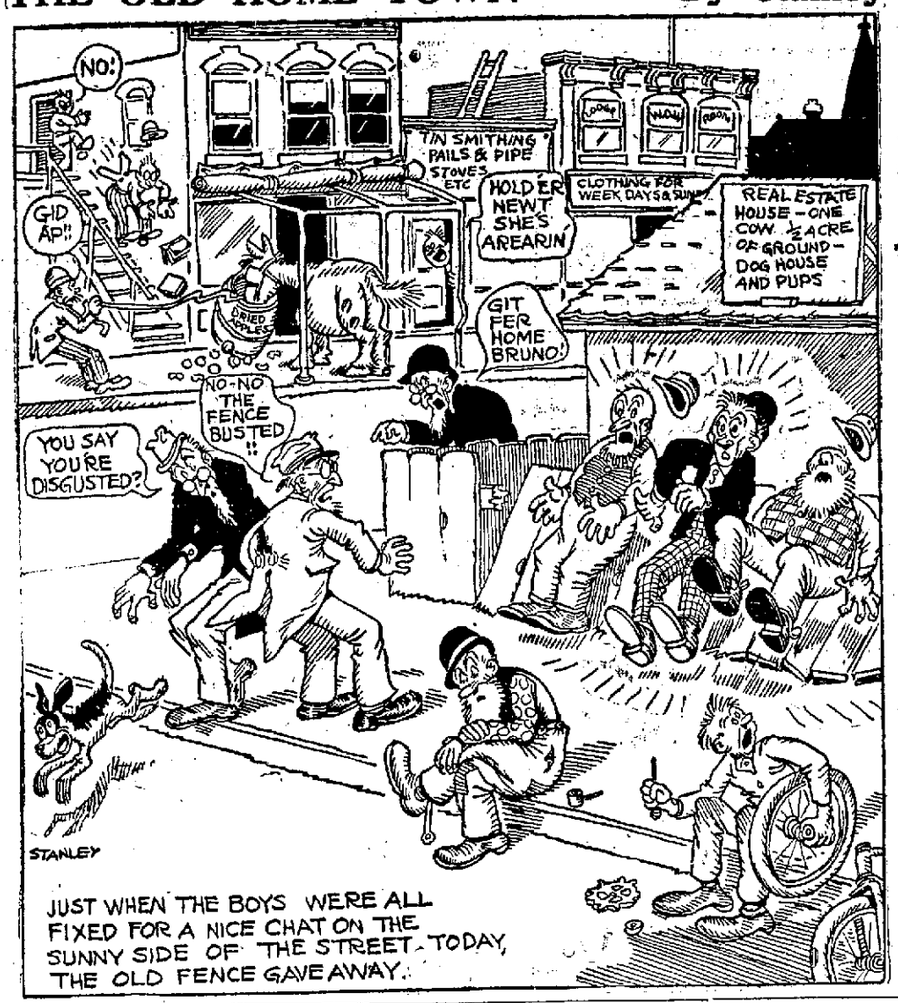

Miss Hartsock, the manager of the Public High School Lunch Room, will co-operate with Miss Troutman by presenting the foods mentioned in the sample meals.

DISCUSS SALUTATORIAN.

Discussion was held upon the names of the candidates for the office of class salutatorian Monday morning in the senior meeting. An informal vote was taken to determine whether the list should remain as named. The seniors voted to keep the list. More discussion will be held Tuesday. As this is the highest honor awarded to a Senior (with that of Valedictorian) there is the keen competition among the supporters of the various upper classmen named as prospects for the place.

Payments for the Decanois will start Tuesday. The price of the annual this year. This year's edition contains thirty-two more pages than the last year's edition.

KENTUCKY LAWS MADE DRASTIC

Burglars Placed in Class With Murderers.

Frankfort, Ky.—Burglars and murderers are placed in the same class in a law passed by the Kentucky General Assembly in the closing days of the 1922 session, the penalty for breaking into a dwelling house at night being fixed at life imprisonment or death in the discretion of the jury.

The assembly also passed a law which provides that embezzlers from banks, bank robbers, wilful murderers, firebugs, highway robbers and persons convicted of crimes against women cannot be paroled.

ST. LOUIS FIGURES SCHOOL EXPENSE

St. Louis, Mo.—It costs $69.44 to instruct each pupil in the elementary schools for a term of 40 weeks, and the cost of teaching each pupil in high school for the same term is $153.44 in St. Louis, according to figures made public by the Citizens' School Tax Committee.

The total enrollment of the public schools at the end of the last term was 103,503 larger than ever before, according to the figures. There were 90,503 grammer school pupils and thirteen thousand high school students, with all schools crowded.

Two new high schools and two new grade schools are to be built soon, and more later. There are 140 public schools, including six high schools and 107 grammar schools and teachers' college.

Old, but—

Richmond Times-Dispatch—"If I could figure out how to stop these rear-end collisions I'd be a made man," remarked the division boss.

"I got an idea," said the head brakeman, "Whyn't yuh try leavin' off th' last car for th other engine t hit?"

NEW FURNISHINGS HIGHLY INGENIOUS

Magic of Home Furnishing Carried Far.

Chicago.—The hidden trap-doors, secret chambers and underground passages of the old romances are rivalled by ingenious novelties in home furnishing which are being produced this year. A house fitted throughout with the new devices would have all the mystery and surprise of a fictitious Gothic castle, but with modernness and domesticity as the keynote. This new romanticism in dwelling-house equipment was evidenced at the annual Own Your Home Exposition in the Coliseum here.

For in these days twin beds swing into the clothes closet, and ironing board unfolds at the pressure of a button; a seat emerges from a panel secreted in the wall of the kitchen and the rear door may be equipped with cabinets in the lower panel for the delivery of groceries, with a set of trick locks to prevent the reopening of the door, and with automatic signs to indicate when the cabinets are full.

HIDE SEWING MACHINE.

An electric, double-spindled sewing machine masquerades as an assembly of card tables or bookcases. A substitute for swing-doors has been devised which slides from view, apparently into nowhere.

Bathroom devices include a half-length tub arranged to enable one to bathe in a sitting posture. A ledge in front extends a foot deeper than the rest of the tub, forming a foot-basin. There are shower attachments.

Inventions intended to simplify kitchen work include a detachable spout for the faucet, which may be used in spraying lettuce or rinsing dishes.

SEEK PLAN FOR WOUNDED'S AID

Geneva—The best methods of aiding the 4,000,000 soldiers and others mutilated in the world war are being investigated by the commission of experts of the International Labor Bureau, one of the subordinate commissions of the League of Nations.

The commission is being assisted by representatives of all the large associations of "mutiles", as the mutilated persons are called, and also by official delegates from Great Britain, France, Italy and Germany, representatives of the Hygiene Commission of the League of Nations, the International Red Cross and of the League of Red Cross Societies.

The Screen

Richard Dix will be leading man in Betty Compson's next picture.

—:—

Fred Weller, who plays a Royal Northwest Mounted policeman in the current Penrhyn Stanlaws production, "Over the Border," purchased from Admiral Peary the pack of pure-stock Alaskan dogs with which the Admiral made his successful dash for the Pole. It is the descendants of these slightly "domesticated" wolves which are seen pulling the sled in the scenes made at Truckee for this Paramount picture featuring Tom Moore and Betty Compson.

—:—

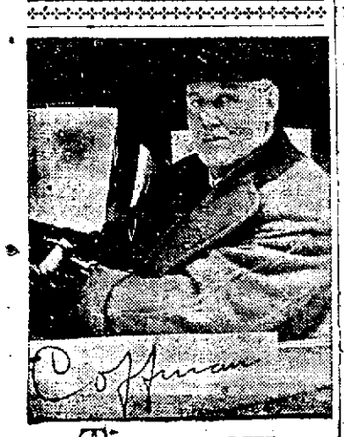

David Powell, who will play the male lead in Gloria Swanson's next picture, "The Gilded Cage" is a Scotchman and has appeared on the speaking stage with Sir Johnston Forbes-Robertson, Beerbohm Tree, Ellen Terry and others. He has appeared in numerous Paramount Pictures. He is five feet ten, weighs 160 pounds and has dark hair and eyes.

—:—

He has fought 179 fights. And has just won one for the first time! Clarence Burton, film villain extraordinary, has finally been allowed to give instead of take one on the chin, the last being the usual fate of picture bad men. The script of "The Ordeal," the new Agnes Ayres Paramount Picture which Paul Powell is directing, permits Burton to knock Edward Sutherland for a row of nickelodeons.

WALL STREET FEELS GENOA

Start of Conference Reflects on Foreign Exchange.

BY STUART P. WEST.
(By Consolidated Press Leased Wire.)

Wall Street, New York, April 10—Today's markets all the way through were as interesting as any this year. It was the first day of the Genoa Economic conference, with its ambitious plans for the reconstruction of Europe, and the feeling in financial circles both here and abroad was distinctly more hopeful than it had been at any time, that important results would be accomplished.

This hopefulness was chiefly reflected in the foreign exchanges, all of which were very strong.

STERLING MOUNTS.

Sterling at its high of the day was up nearly four cents in the pounds from where it stood on Friday last and within less than three cents of the high record of March one French, Italian and the Scandinavian rates moved sympathetically and German marks were up .5 from their record low of two weeks ago.

RISE FELT

The grain market was directly influenced by the rise in the exchanges, and so undoubtedly were the security markets, although the possible accomplishments at Genoa are not the consideration of first importance. It is the domestic trade reports which are the governing influence on the stock exchange, and here as expected the testimony over Sunday in reports from the steel centers was altogether favorable

ORDERS INCREASE

For the first time this year the steel corporation showed an increase of orders on its book during the month of March and the increased—353,070 tons—was a very substantial one. It brought the corporation's unfilled tonnage back to the largest total since September It gave an even stronger impression of last month's speeding up on steel production than Wall street had previously.

STOCK DEALINGS SLIGHTLY LOWER

[By the Associated Press]

New York, April 10—Prices became irregular in the first hour of the stock exchange today, on selling of industrials attributed to pools but rails held their ground. Dealings were large but somewhat under the high pressure of the previous week. Great Northern, "Soo," Missouri Pacific preferred, Ontario and Western and Pittsburgh and West Virginia were prominent among the stronger rails.

TRACTIONS EASE

Steels equipments, motors and oils threw off their heaviness before noon on more confident absorption of Bethlehem, Crucible, Baldwin, Studebaker and Mexican Petroleum. Local tractions eased under realizing, but other utilities, especially the several preferred issues of Market street Railway and United Railways investment, were 1 to 2½ points higher. Call money opened at 4½ per cent.

The closing was strong.

Financial Notes.

New York, April 10—American Coal of Allegheny county, American Shipbuilding common, common extra and preferred, E. I. Dupont Powder, Deb Harrison Walker preferred and Mexican Seaboard Oil sold exdividend today.

The Replogel Steel Company has acquired the property of the Empire Steel & Iron Company. It is expected that Conard Peek, president of the Empire Co., will be elected president of the Replogel.

The Carnegie Steel Company has banked two blast furnaces at Etna. Republic Steel and several independents are reported to have banked some furnaces in the Mahoning valley.

The American Steel & Wire Company works at Pittsburgh closed down today throwing 1,500 out of employment. United States Steel corporation will curtail operations also at Donora. Shortage of coal is the reason assigned.

The one cent a gallon advance in the tank wagon price of gasolines in Indiana and 1½c in Chicago territory by the Standard Oil of Indiana went into effect today.

The Iron Products corporation today declared the regular quarterly dividend of $2 a share on the preferred stock payable May 15 to stock of record May 1.

NEW YORK SILVER.

New York, April 10—Foreign bar silver 65¼, Mexican dollars 50¼.

DRY GOODS.

New York, April 10—Little change was manifested in the dry goods market over the week-end either in prices or volume of trading. Wide print cloths still continued dull with prices practically at the same levels as on Saturday. Sheetings continued to be the feature of the dealings with sufficient call for export shipment to steady the market in the face of slack domestic demand. The finegoods trade showed little sign of activity, and drills and twill and pajama checks were dull. Raw silk was firm.

FOREIGN EXCHANGE.

New York, April 10—Foreign exchange strong. Great Britain demand 4 41⅞, cables 4 42¼; France demand 9 24; Italy demand 5 42; Belgium demand 8.56, Germany demand .34¼, Holland demand 37 64; Norway demand 18 40, Sweden demand 26 15, Denmark demand 21.25; Switzerland demand 19 44, Spain demand 15 58, Greece demand 4 50; Poland demand .02⅝, Czecho-Slovakia demand 1.98½; Argentine demand 35 62, Brazil demand 13 87, Montreal 97⅞.

How are the Roads?

Tuscola—Main roads in fair condition; side roads very muddy.

Shelbyville—Roads very muddy.

Pana—Roads muddy.

Business News of Today

(Copyright, 1922, By Consolidated Press)

STORM DAMAGES.

Fort Worth, Tex., April 10—Only the ranchmen and the oil drillers benefitted by the storms which have swept the southwest in the last week. Others suffered seriously. Business slumped, farmers saw their spring work go for naught, railroads lost heavily through track damage and at least a dozen small towns suffered heavy property losses. Enough water was left in the wake of the storms to fill lakes, river, and creeks to overflowing.

Damage in the fruit and truck belt is just beginning to become apparent The peach crop was damaged most. The young orchards which have been planted in considerable numbers in the last few years, suffered least. The tomato plants still in the cold frames suffered to some extent but enough remain to set out the regular acreage. A large acreage will be planted to watermelons this year.

NEW ENGLAND BEHIND.

Boston, April 10—Trade reports indicate that whereas New England was in a relatively better condition industdially than most other parts of the United States a year ago, today this section is trailing in the general recovery. The labor situation is the big problem of this section at present. Those industries which have succeeded in deflating costs, including labor, are doing beter. The most unsatisfactory labor conditions now are in textiles and shoes.

The Rhole Island and New Hampshire cotton mills are still closed by strikes now in their third month. The strike in the cotton mills at Lawrence, Mass., is gradually spreading.

The two bright spots in the situation are the increase in building construction and the increase in demand for steel products. Present plans indicate that 1922 will see the largest volume of new construction in years in New England The buying of steel in the last two weeks has been the heaviest in over a year.

COAST FINANCES.

San Francisco, April 10 — The banks are in a specially strong position here Real estate is active, large transactions in business property being a feature of the market. There is apparent a marked increase in retail trade. Oil production is increasing and the market for oil and refined products is stronger as a result of the coal strike. Money for building is abundant and there is a veritable building boom in prospect, the extent of which is limited only by the number of merchants in the building trades available.

Early crops are moving more freely with an improvement noted in Easter demand. Warmer weather has caused increased shipments of asparagus, lettuce and celery. Early reports indicate a good yield from the peach orchard, although the cold rains have probably caused some reduction in the apricot crop. The yield of grapes this season promises to be heavy if there are no damaging frosts. Bidders now are offering $125 a ton for the best varieties as yet unripened.

The automobile trade is spotty. Dealers report that there are about ten makes which are selling readily and some of these are doing a big business. Outside of these ten, there seems to be little demand.

BANK LOANS.

Detroit, April 10—Banks of Michigan are beginning to make constructions loan. One bank here loaned $3,000,000 for this purpose within the last week. Building permits issued last week totaled $1,018,965 compared with $1,097,505 the previous week and $830 690 for the corresponding week last year.

BUILDING DEMAND.

St. Louis, April 10—There is a strong demand for real estate for mercantile and industrial purposes in the cities of this section. The building movement, which had been active in the smaller towns, now is spreading to the cities and more men in the building trades are going to work daily.

BUSINESS REVIVAL.

Pittsburgh, April 10—A marked revival in business is evident throughvival in business is evident throughaccording to officials of the Pittsburgh Chamber of Commerce who have just returned from an extensive trip to make arrangements for the annual trade excusion of the Chamber. Improvement is evident in both large and small communities, they say.

COMMODITY NEWS.

By Consolidated Press Leased Wire

COAL.

New Castle, England—While colliers have sold their output for early loading, resellers have been pressing supplies on the market, causing easiness in the prices for prompt positions. Although American competition has practically ceased because of the strike, Belgian producers have reduced prices and are attracting custom while Italy is said to be well supplied for present needs.

St Louis, April 10—Since the beginning of the coal strike, dealers have added a storage carrying charge of 50c a ton on standard bituminous coal.

MILK.

Pittsburgh, April 10—Milk prices are expected to remain unchanged here for another month at least. Present prices are: milk, quart 12 cents; pint 7½ cents; cream, quart, **64 cents; pint, 32 cents; half pint, 16 cents; buttermilk quart 9 cents.**

FRUIT.

Petoskey, Mich., April 10—Fruit growers in this section are happy over weather prospects. For the first time in many years the lake Michigans and inlets in this section have been covered with thick ice in April This holds back early budding of fruit trees and is considered good protection against late frosts Orchardists claim that large crops usually follow late budding.

STEEL.

Philadelphia, April 10—Samuel M. Vauclain, president of the Baldwin Locomotive Co. estimated that about fifty billion dollars must be expended for necessary building construction in this country and that this will create a strong demand for steel at rising prices.

GRAIN.

Lansing April 10—Winter grain crops in Michigan are in good condition over greater part of the state according to the state department of agriculture The department's survey shows that a much larger acreage of alfalfa will be sown in lower Michigan the coming season

RADIO EQUIPMENT.

Jackson Mich April 10—The Reynolds Spring company has closed a contract with the Deforest Radio telephone and Telegraph company calling for upwards of $5,000,000 worth of radio equipment This contract it is said will require corporation of a minimum of $190 810 for materia's this month The company plants are to add 500 men within sixty days

CANNED GOODS.

Chicago April 10—A movement is in progress to restrict the canning of corn this season for fear that loss will result if the pack exceeds 6,000,000 cases

MACHINERY.

St Louis—There is a better demand in this district for machinery of all kinds. Automobile sales have increased the call being for commercial vehicles and tractors as well as pleasure cars.

CARPETS.

New York, April 10—The stability of prices shown and the volume of goods sold at the recent auction sales of the Alexander Smith & Sons Carpet company have encouraged rug and carpet makers and retailers. About $5,250,000 worth of goods were disposed of.

Industrial Gossip of Here and There

[By the Associated Press]

ON UPWARD TREND.

New York—Conviction that the farmers of the United States have "turned the corner" and are now started on the road to normally prosperous conditions was the con**sensus of statements by governors** of leading agricultural states made public here today.

The assurances were given in response to an inquiry by E. A. Stroud to ascertain the facts concerning the agricultural situation. They came from agricultural states representative of all sections of the country, from New England to the plains states of the Middle West and from the Great Lakes to Virginia and Missisippi.

ARGENTINE MARKET.

Buenos Aires—Cattle and other livestock will bought and sold for future delivery at a market which a newly organized "Exchange for the Quotation of Argentine Products" proposes to establish in Buenos Aires. There will also be, however, spot quotations representing cash sales of real animals.

RAIL REDUCTIONS.

Chicago, Ill.—Reductions ranging from 25 to 45 per cent will be declared on all railroads west of Chicago and St. Louis in round trip efares to Western summer resorts effective in some territories May 15, in others June 1, according to George J. Maguire, chairman of the tariff bureau of the Western Passenger Association. Reductions of 20 per cent on fares to eastern resorts will be declared on Eastern railroads and applied concurrently on the Western lines, it was announced.

INDUSTRIAL SCHOOLS.

Chicago, Ill.—Germany today has a school of industrial art in every municipality with a population of 100,000 or more. Director Robert Harshe of the Art Institute of Chicago said today. "America has only two institutions comparable with the European schools," he added, "though some schools, like that of the Art Institute, conduct such industrial courses as they have room for.

ST. LOUIS HAY.

St Louis, April 10—Sales: Timothy—1 car No. 3 at $18. 1 car No. 2 at $20, part car do at $22 1 car standard at $23 1 car No. 1 at $25. Clover—1 car No. 2 at $23

WEATHER HAS BULLISH TOUCH

Larger Decrease Than Expected Also Sends Prices Further Up.

Chicago, April 10.—Wheat scored a material upturn in price today during the early dealings, Liverpool quotations being sharply higher and crop reports from the southwest being less favorable. There was but little pressure to sell. Eastern interests led the buying, the opening, which ranged from ⅝c to 1⅛c higher, with May $1.33 to 1.33¼ and July $1.21¼ to 1.21½ was followed by moderate further gains and then something of a reaction.

CLOSE UNSETTLED.

A larger decrease than expected in the visible supply tended subsequently to send prices further upgrade, and so too did word of heavy wind and sand storms in Oklahoma. The close, however, was unsettled, ½ to 1⅝c net higher, May $1.33⅝ to 1.33¾ and July $1.21⅛ to 1.21¼.

Corn and oats sympathized with the wheat advance. After opening ⅛c to ⅝c higher, July 62⅞ to 63, the corn market gained a little more and then sagged somewhat.

Adverse weather for field work led to some additional strength in prices later. The close was unsettled, at ½c to ¾c, net advance, July 63¼ to 63⅜.

Oats started unchanged to ¼c up July 39⅞c and made a slight general advance before showing any tendency to halt.

Higher quotations on hogs helped to give a lift to the provision market.

CONTINUE TESTS ON BATES ROAD

Springfield, Ill., April 10.—With several sections of the Bates experimental road near here going to pieces, and other section showing marked signs of "distres" under the weight of the fleet of three-ton trucks which have made their first 1,000 round trips, highway officials **prepared to gradually increase the loads on the truck until every section of the road is given the extreme test of heavy traffic.**

WATCH RESULTS.

Illinois and federal highway engineers with those of many other states are watching the Bates road experiment with keen interest, as the test is declared by engineers to be the most intense experiment ever conducted for trying the strength and durability of various hard road designs and materials.

The Bates road, two miles long, is built in sixty-three sections, no two of which are the same thickness, material or design. The road was started in 1920 and completed early in 1921.

HOGS AT $11, BEEF STRONG

Sellers Ask More Money with Runs Monday Keeping Light.

(By Consolidated Press Leased Wire.)

Union Stock Yards Chicago, April 10—Runs were not heavy today, and sellers asked more money. Average price of good beef steers last week, was placed at $7.85, against $7.75 the week before. Hogs reached $11 mark from the start.

Receipts were 18,000 cattle, 40,000 hogs, 14,000 sheep and 3,000 calves.

STEERS SLOW.

CATTLE: Steers sold slow, and most of the deals were down 15@25c. Few heavy steers were good enough to reach $8.50. Lack of quality was evident, and this delayed the trade. Bulk of steers sold at $7.25@8.50. Cows and heifers were down 15c, while canners and bulls were weak. Best veal calves sold at 7.50@8, on a weak market.

HOGS ACTIVE.

HOGS: Demand was active from the start, and values were 10@15c higher. Choice light hogs went at $11 many times, while bulk of good medium and heavy butchers sold at $10.60@10.85. Rough packing hogs sold at $9.40@9 75, with good lots at $10@10.25.

LAMBS STEADY.

SHEEP: Lambs were generally steady, but some sales were strong. Choice wool lambs went at $16.35, while good shorn stock went at $13.25@13.50. Aged stock sold strong, some shorn wethers going at $10, against $9.90 at the close of last week.

Chicago Live Stock

Chicago, April 10—CATTLE— Receipts 18,000, slow, few early sales beef steers weak to 25c lower; early top $8 75; bulk of quality to sell at $7.25@8 25, she-stock weak to lower; fat cows and heifers mostly $5.15@6 65; bologna bulls and stockers steady; bolognas largely $4 25@4.40, few best heavies $4.50; bidding 25 to 50c lower on veal calves Mostly around $7 50.

HOGS—Receipts 40,000 mostly 10 to 15c higher than yesterday's average; fairly active, but most big packers holding back —top $11 00; bulk $10 50@10 85; pigs about steady.

HECOX FREE OF MURDER CHARGE

Doyleston, Pa., April 10—Roy Hecox the Haycock Mountain "wild man" who was under arrest here on suspicion of having killed a constable 22 years ago is on his way to Grass Valley, California, to work on his brother's fruit ranch. He was released from the Buck's county prison today when the brother, Walter Hecox, made identification and offered Roy a job.

They had not met since Roy wandered away from Tucson, Ariz., 11 years ago. Walter Hecox before becoming a fruit grower, was an auditor for the Union Pacific lines in San Francisco.

WOOL.

Boston, April 10—There was evidence of some minor speculative trading in the wool market here, stimulated to some extent by the shipment on consignment of wools from the new southwestern clips There also was some buying of coarse South American wools in storage

General buying, however, apparently is awaiting an improvement in the mill and woolen goods situation. Buyers and sellers on the ranges seem to be approaching nearer to prices ideas where they can do business. There is some California and Texas wool on the market Prices on the Arizona ranges are said to be ranging around 34½ cents to 37c a pound

SPECIAL GUARD ON GRANITE CITY DIKE

Granite City, Ill., April 10 — A special levee guard was ordered to work here Sunday night on the Mississippi river levee mainly for observation purposes. No danger from the rising waters is anticipated.

CORN ADVANCES, QUOTED AT 46

Hog Prices Also Higher Monday; Dairy Is Steady.

Corn was stronger again Monday and station buyers added another half cent a bushel to their offers, the price now being forty-six cents.

Receipts are very small because of the road conditions.

Hogs are again higher and if the advance made Monday is maintained local prices will pass the $10 mark for the first time for some months.

Eggs are very firm and advanced one cent in spite of the fear of the shippers of a decline from the spring rush.

Poultry is firm and unchanged with a heavy demand from the eastern markets.

$400,000

The Norwalk Iron Works Co.

South Norwalk, Connecticut

First Mortgage 8 Per Cent Sinking Fund Gold Bonds.

Dated April 1, 1922

Due April 1, 1937

Denominations $1,000, $500, $100

Principal and semi-annual interest payable (October 1 and April 1) at the office of THE UNION TRUST COMPANY, CLEVELAND, OHIO. THE UNION TRUST COMPANY and GROVER H. HULL, Trustees.

Redeemable (all or in part) on any interest paying date on or prior to April 1, 1925, upon four weeks' published notice, at 120 and accrued interest and thereafter at 110 and accrrued interest.

Beginning April 1, 1925 and on April 1 of each year thereafter, the Company is required to use 25 per cent of its net earnings for the preceding fiscal year **to purchase these bonds** in the open market at the lowest price obtainable or to call the amount not so obtainable at 110 and accrued interest. All bonds so purchased by the Company must be immediately cancelled.

The Company agrees to pay the normal Federal Income Tax to the amount of 2 per cent, and also the Pennsylvania four mill tax.

IMPORTANT.

Net Tangible Assets for each $1,000 bond $3,630.00

COMPANY OPERATING SUCCESSFULLY 52 YEARS.

It also has a well developed line of refrigerating and ice making machinery, such as is used by packing houses, candy and ice cream manufacturers, cold storage plants, butcher, delicatessen shops and grocery stores, hotels, restaurants and large residences.

SECURITY.

This issue of bonds is specifically secured by a first mortgage on the land, buildings and equipment of The Norwalk Iron Works Company. The Manufacturers Appraisal Company has just completed an appraisal of this property, upon which it places a sound value of $988,375.79, which is almost 2½ times the amount of this bond issue.

EARNINGS.

A readjusted statement, showing the application of the proceeds of this bond issue, shows the Company with current assets of about 31 times current liabilities. The business is showing a steady increase and the net earnings for the present fiscal year should be $150,000, which is almost five times the maximum annual interest requirements of this issue.

INSURANCE.

The trust indenture provides that the company keep its property insured against fire for at least $400,000.

In accordance with the trust deed, all policies are assigned to and deposited with the Trustee for the protection of the bondholders.

WE OFFER AND RECOMMEND THE ABOVE BONDS FOR CONSERVATIVE INVESTMENT, for delivery, when, as, and if issued and received by us, subject to the approval of legal proceedings by counsel.

Former Service Men Out for G.O.P. Committeemen

Have Worked Up Plan During Last Year; Some Old Members May Not Make Race.

Sixteen former service men will make the race in as many Decatur precincts for Republican committeemen at the election Tuesday That was settled at a meeting held in the Y M C A annex Sunday afternoon and the precincts in which the races for the positions will be made and the men will make them are as follows

First—Guy Crumrine 306 Moeller building

Second—Frank Stevenson 346 East Eldorado

Third—Robert Crisp 826 North Main

Fifth—Maurice Powers, 521 East Leafland

Eighth—Fred Hoyt 2110 North Edward

Ninth—Joseph H Riggs Jr 340 West Grand

Tenth—H V Rodgers, 136 West Packard.

Fourteenth—Carl Meacham 371 West North

Fifteenth—W Lutz Krigbaum 312 South Edward

Seventeenth —Ralph Tenney, 463 South Monroe

Nineteenth—Dr R L Morris 805 West North

Twenty-First—Eugene Hamill 625 West Center

Twenty second — Harold Hughes 1409 North Oakland

Twenty-fifth—Charles E Lee 1249 West Forest

Thirty-fourth—Harold Sanford

Thirty-fifth — Dewey Willoughby 335 South Franklin

PLANNED YEAR AGO

This is a movement of the service men pure and simple It was really born about a year ago and has been under consideration for some time ' said a well known former service men in speaking Monday of plan which has been announced of having service men as candidates for precinct committeemen on the Republican ticket Tuesday

We want this understood. We are not allied with any clique or faction but we do believe that we have some ideals of patriotic rather than solely partisan service We believe that we have shown by our other service that we are willing to serve the community or the nation as a whole—not as partisans

'Then there is another thing continued this man who served abroad during the war

SERVICE MEN OVERLOOKED

While we I certainly are not asking much political recognition as service men we have heard too often and with monotonous regularity when we have suggested that certain offices might go to service men who are capable and who might need the office instead of it being handed to a politician 'On sure enough that was overlooked this time'

The service man has been 'overlooked too long and that is the reason that we decided at a meeting which we held in the Y M C A annex Sunday afternoon to name committeemen in the seventeen precincts where we found the available

'This is no sudden thing It is not unplanned or unconsidered It has been quietly worked up for nearly a year We believe that we will elect some of our men too

SOME NOT TO RUN

Indications Monday morning were the some of the older members of the central committee will no make the race against the service men

Tom Moran committeeman from the First has moved out of the district and it is understood that J P Donahue in the second will also not make the race

BREAK SEEN

The break in the ranks of the Republican local organization is still quite as marked as it was before and after the election in which Elmer Elder made such a showing in spite of the fact that he had been left off the ticket by the Republican convention and there are a number of precincts in which frankly anti-organization men are running for precinct committeemen

Among those given as making an active fight are the following

Fifth—Charles Crump

Eleventh—Elmer R Elder

Twelfth—George Bobb and George Marshall

Twenty second—Fred Frey

Twenty-third—C E Brown

Twenty-sixth—W F Imgrund

Twenty-ninth—W Woshnehl

Thirtieth—B F Clear

Thirty-first—Walter Grant

Thirty second—Ollie Houck

PRESENT COMMITTEEMEN

The present Republican precinct committeemen are

1—Tom Moran 320 North Water

2—Joe P Donahue 624 East Eldorado

3—Rober J Williams 708 North Water

4—Jacob Weigand 518 E Condit

5—W J Haffey 803 East Leafland

6—Noah C Davis 1444 North Water

AMERICAN LEGION NOT IN POLITICS

Charles Lee Commander of Castle Williams Post American Legion, said Monday morning that the American Legion in Decatur is not in politics The Legion as an organization is barred from entering politics There was nothing he said however to keep individuals from entering into affairs of their city county or nation The men Mr Lee pointed out that have announced themselves are out as service men They are not American Legion candidates and the Legion is not as an organization in politics

T. W. SAMUELS SUPPORTS TENNEY

T W Samuels present Republican committeeman from the nineteenth precinct will not be a candidate for re election He is supporting Ralph Tenney who is the former service man candidate

Mr Tenney has made it clear in his campaign that he is not serving any faction or clique but is out as a service man and will look after the precinct business to the best of his ability

BE SURE BALLOT STICKER STICKS

Those who vote for precinct committeemen in the primaries Tuesday must be careful that the stickers they use are firmly attached to the ballot otherwise they will not be counted Many voters do not use sufficient care in pasting on the sticker and the result is that many of the stickers come off

The law permits the use of stickers and also provides that the name of the candidate may be written in if there is any doubt of the sticker coming off the voter should throw it away and write in the name of the candidate in the blank space provided for that purpose

WALTER M'NEIL FOR COUNTY JUDGE

L Walter McNeil who was a candidate on the Democratic ticket for county judge four years ago is again a candidate but the voters will have to write his name in on the ballot Mr McNeil is a Decatur lawyer

SEVENTY AT FIRST Y. M. C. A. MEETING

Bishop Nicholson Makes Address.

About seventy men attended the initial meeting in observance of Passion Week at the Y M C A annex Monday noon with Bishop Thomas Nicholson as the principal speaker L W Snerly acted as chairman and Bishop Nicholson was introduced by Dr A M Wells

In his address Bishop Nicholsen emphasized his point that the most effective way to win men whether it be in the church in business or in national life and in international relations is by conquest and by good will

KEEP BOUNDARY LINE

In support of his statement he cited the fact that the frontier which has kept the United States and Canada on amiable terms throughout their existence has not been maintained with armaments and military detachments but by the application of good will mutual esteem and cooperation

The final patriotism he said will be not state or national patriotism but world patriotism

Rev John L Gunn of Arcola will speak at the second meeting Tuesday noon

Special music was furnished by Eldon Geiger and Elmer Lyons

Brick Plant May Be Opened Soon

Increased Demand May Bring Resumption.

Improved inquiry in the brick business may lead to the re-opening of the Decatur Brick Co's big brick making plant before the end of this month The plant has been shut down entirely for some time but the improved demand resulting from the increased building operations over the country is making a hole in the reserve stock on hand

WABASH OFFICIALS TO CELEBRATION

Road Shows Profit in January and February.

FUEL MUST BE SAVED

C. I. and W. Sends Warning to Crews.

Officials of the Wabash in both operating and traffic departments will gather in St Louis Wednesday and Thursday to celebrate the fact that the company's earnings for January and February showed a profit instead of a deficit President J E Taussig is to be the host

One day last December when many of these officials were in St Louis for a meeting President Taussig told them that if the road could get away from a deficit in January and February that he would give them a banquet And then when the figures were all in for those two months it was found the company had not lost money and the banquet was due

Now the officials have been called in for a two day session Wednesday and Thursday most of which time will be devoted to business Thursday afternoon however is to be devoted to pleasure Among those going from Decatur will be George F Hess general superintendent of motive power and equipment and his assistants Messrs Coutant Esele and Gimple and also Superintendent J E Stumpf of the Decatur division

Billy Kirk in Hospital.

Billy Kirk well known yet ran employe of the Wabash north end has entered the Wabash hospital at Decatur again for another operation on his leg The story was told in this column perhaps a year ago of the loss of one leg by Mr Kirk years back and of how it becomes necessary at intervals to perform another operation to remove a little more of the remainder of the injured member Such an operation was performed about a year ago and now another is to be performed

Must Watch Fuel

Because of a big increase in the amount of coal used by C I and W enginemen durinig 1921 as compared with 1919 the company has ordered its fuel and engine supervisors to keep close watch on all engines and any engine crew showing a waste in fuel is to be taken out of service This is according to a bulletin just put up which says that coal consumption on the road in 1921 showed a 20 per cent increase over 1919 with the same amount of tonnage and same variety of coal The coal bill in 1921 was $400 000

The Illinois Central in a bulletin to employes to exercise more care in their work says that $93 808 was the total of freight claims paid out to shippers in 1921 because of errors on the part of employes This is in addition to delay and paying for back haul ing

Of twenty places on the Wabash where switchmen are employed Decatur ranks in last place with the percentage injured in February There are 102 switchmen in the Decatur yards with five injuries or 4 90 per cent Fifteen points on the system showed no injured switchmen during the month

The Ford motor people are now routing practically all of the shipments from Detroit to the Omaha plant via D T and I and Wabash according to word given the Wabash freight department by the Ford representative in Omaha and the reason given was that the Wabash gave just as good service as any other road and in issuing passing reports gave unequalled service

The Decatur wrecker of the Wabash is temporarily out of service being in the locomotive shops to have the flues renewed

The Wabash sent a pay car out of St Louis Monday to pay all employes on the division except those at Decatur An extra engine was dispatched from Decatur on No 1 Sunday night to hand the pay car This car or plan of paying occurs on the system once or twice every year and is for the purpose of checking up on the payrolls

Conductor Otto Behrns holding caboose No 2220 on the Wabash Iota district and his brakeman Ernst also a vacancy composed the train crew cut off the south end pool because of falling off in business Six extra brakemen were also cut off the board They are Amor Benskin Brett Rickey Lessman and Miller

Because of the shortage in business the Wabash has taken off the third trick switch engine job at Forrest

Notice was received at the Wabash roundhouse Monday morning of the death of Fireman Bert Covert's mother at Palmer She had been in ill health for quite a long time

The father of Wabash Machinist M C Tramp died in Lafayette Ind last Thursday and was buried at his home in Bloomington Sunday He was an engineer on the Big Four and went to the company hospital at Lafayette for an operation last week

The Wabash handled the Chicago Cubs baseball team through on No 28 early Monday morning from Kansas City to Indianapolis. They occupied two special cars

After hauling a large number of carloads of cinders to the small washout on the Wabash south bound main at Happy Hollow south of Taylorville that track was gotten back into shape for travel Sunday afternoon and trains were allowed to proceed over it slowly

Break in Press Delays Review

Telephones Are Unable to Handle All Inquiries.

Because of a break in The Review press The Decatur Sunday Review was delayed several hours Sunday morning The telephone company was swamped with calls and all four telephone lines into The Review office were constantly busy for hours answering inquiries

For years The Review has operated its press without trouble or delay and steps are now being taken to permanently and entirely eliminate the trouble that caused the delay Sunday morning

WILL C. STARR TO HEAD ROTARY

J M. Allen to Be Next Vice President.

Will C Starr was nominated for president of the Decatur Rotary club by the board of directors at the regular meeting of the club Monday noon

James M Allen was nominated for vice president and Tom Pitner for secretary treasurer

The expected election of Mr Allen to the vice presidency will make a vacancy in the board of directors and to fill that Dr R L Morris was nominated

ELECTION APRIL 23

The formal election will take place Monday April 23

The meeting Monday was held at the Roosevelt junior high school and the members of the club inspected the handsome building while the children were occupying the lunch room after which the Rotarians had their lunch served there

A report on the recent conference showed that the local club had put into the conference fund about $1 200 in addition to the registration fee of five dollars for each member and five dollars for the wives who attended

COST CLUB $2 000

As the club has a membership of 130 the registration fees for the local club members and their wives ran about $1 000 in addition to the special assessment of five dollars for the conference fund and the $800 voted from the club's treasury for the same purpose The conference cost the Decatur club over $2000

Announcement was made that the printers of the city had agreed to imprint the special boost Decatur seal which the Association of Commerce has adopted on business envelopes for $2 a thousand The association has asked that as many business men as possible adopt this simple method of spreading Decatur's fame

City to Ask for Renewal of Lease

City Clerk to Appear Before Supervisors.

Decatur's city council will formally ask the board of supervisors of the county at the board's meeting Saturday to grant the city a renewal of the lease on the city quarters in the court house for another year in the same terms on which the city now has the rooms.

The city clerk was instructed Monday to make out a formal statement to this effect to be presented to the board at that meeting

City officials hope to be saved the expense of moving the city quarters until such time within two or three years thinks Mayor Borchers, as the city will have a building of its own

ASTON HALL GIRLS USHER IN SPRING

Will Wear White Dresses to Chapel.

Spring will be officially ushered in at James Millikin University Tuesday when the residents of Aston Hall will hold their annual spring opening

All residents of the hall totaling some one hundred girl students will attend classes Tuesday clad in white dresses and all the other spring accessories They will march in to chapel services in the auditorium in a body and will all sit in a special section

Although many students have been preparing for spring for a week or two the spring opening of Aston Hall will sound the knell of winter apparel and will herald the approaching time for donning clothing more appropriate to the weather conditions

Dean of women Lillian Walker was just the least bit skeptical Monday that April showers will spoil the parade but many of the girls will be seen Tuesday in their light dresses rain or shine

DRESS REHEARSALS

Final dress rehearsals of members of the Millikin Dramatic Club cast in the three plays The Pot Boiler 'Land of Hearts Desire and 'The Maker of Dreams were held last Saturday afternoon and everything is in readiness for the second showing Monday evening

The plays were first given on last Monday evening and marked the opening of the Little Theater ' So greatly did the performances please that a second showing was arranged for the will be given in the university auditorium Monday evening commencing at 8 15

The several divisions of the Decatur Woman's Club have reserved practically all of the seats on the main floor but there are still good seats in the balcony

SCHOOLS OPEN AFTER VACATION

Nearly All Teachers Are Back in Their Places

PLENTY MUD HOLES IN ALL HIGHWAYS

Ready to Drag When Sun Does Some Work.

WORK ON APPROACH

Becker Still Hauling Cinders to Bridge.

No the highway commissioners are not actively engaged just now in planing down and sandpapering their roads But they are actively engaged in filling up mudholes The fact is there is nothing the matter with the roads as a whole but there is an average of about one mudhole to the mile and it is the mudhole which is the difficulty Every body concerned with the roads are trying first to bridge the mud chasms When that is done they will begin dragging

The road to Elwin has been put in usable shape and it is possible to get as far as Macon but beyond that there is not much that can be promised

ROAD BULLETINS

There is not much good news offered in connection with the roads The Decatur Motor clubs road bulletin Monday forenoon gave the following information

Latham reported Sunday that there were no cars passing through there

Argenta reported Monday morning that roads are impassable.

Mr Knotts of the Hammond garage drove out from Decatur Sunday afternoon by way of Mt Zion and got stuck before reaching the Ocean to Ocean highway There were a number of bad places but only one that he was not able to negotiate without help

A traveling man from Decatur drove into Macon Monday morning managed to get through without chains but he advised that no one else try it

PANA ROADS

Pana reported there were no roads out of town except to the north

Forsyth reported Monday morning that the road to Warrensburg was usable but there are several bad places in it

Two men from Ohio on their way to the coast arrived in Decatur on foot Monday morning They left their car in Barney Fulton's barn at the top of the hill east of the river They made up their minds that they will stay in Decatur until roads are better

WORSE ELSEWHERE

Bad as roads are in Macon county they are not as bad as they are in some of the neighboring counties Nor are they a marker to what they would have been if they had not gone into the present spell of wet weather in exceptionally good condition Macon county roads were better worked last summer than they ever were before and except for the mudholes, the spot here and there where they broke through they are in excelent shape right now

WORKS ON APPROACH

Charles Becker township highway commissioner had teams hauling cinders all day Sunday to the south approach to the county bridge The teamsters were at the work again Monday morning

Mr Becker thinks that the clay on that approach will always be clay slippery as soap in wet weather and that the paving of the road is the only real solution of the trouble for wet weather conditions

COPE WANTS TO CLOSE BIG DAM

Says Gates Can Handle Ordinary Flow.

Roy Cope of L N Cope & Son, was before the city council Monday morning asking for a blanket order to go ahead on the completion of the dam by building the two blocks which have been left out of the spillway.

Mr. Cope said that the delay is costing the city money and is costing the firm money and he contended that if the blocks could be put in and the work just below the dam completed the ordinary flow of the stream could be controlled by the flood gates which could then be used

OTHERS AGREE.

The mayor then said that he had always contended that the spillway might just as well be completed as the ordinary flow of water can be controlled by the flood gates and a big flood will go over the dam anyway

Harry Ruthrauff agreed with Mr. Cope as he wants to be able to clear the intakes below the dam These are the old intakes and they have buried in mud by the action of the water rushing through the openings left in the spillway

TO CONSULT ALL

After some discussion it was decided to consult with all of the contractors interested and see if some time cannot be set for the finishing of the spillway

W M Bering, secretary of the company is opposed to the closing of the dam until the work up the river is more nearly completed The mayor believes that this could just as well be done with the dam closed as in the present condition.

DANGER LURKS ON GOLF LINKS

Windshields of Autos Broken by Golf Balls.

Potential ill health in the shape of golf balls and possibilities of damage to cars lurk around the Nelson Park golf links, particularly on Sundays ' said a golfer Monday morning Sunday the machines were parked along the fairways so close that a number of windshields were broken

I think something ought to be done about it because it is dangerous '

AMUNDSEN IN AIR CRASH

Cleveland April 10—Captain Roald Amundsen's monoplane which left New York this morning for Cleveland, on the first lap of a continental flight was wrecked at Miola, Pennsylvania this afternoon, according to a message received here late today by Charles A Otis, local broker, from Horace Gade his New York manager and one of the party

The telegram said no one was injured and that Mr Gade would reach Cleveland by train tonight

News From the Sick.

Louis A Moran arrived home Monday from Chicago where he has been recuperating for the last three weeks His health is greatly improved

PLANNED YEAR AGO

This is a movement of the service men pure and simple It was really born about a year ago and has been under consideration for some time ' said a well known former service men in speaking Monday of plan which has been announced of having service men as candidates for precinct committeemen on the Republican ticket Tuesday

We want this understood. We are not allied with any clique or faction but we do believe that we have some ideals of patriotic rather than solely partisan service We believe that we have shown by our other service that we are willing to serve the community or the nation as a whole—not as partisans

'Then there is another thing continued this man who served abroad during the war

SERVICE MEN OVERLOOKED

While we I certainly are not asking much political recognition as service men we have heard too often and with monotonous regularity when we have suggested that certain offices might go to service men who are capable and who might need the office instead of it being handed to a politician 'On sure enough that was overlooked this time'

The service man has been 'overlooked too long and that is the reason that we decided at a meeting which we held in the Y M C A annex Sunday afternoon to name committeemen in the seventeen precincts where we found the available

'This is no sudden thing It is not unplanned or unconsidered It has been quietly worked up for nearly a year We believe that we will elect some of our men too

SOME NOT TO RUN

Indications Monday morning were the some of the older members of the central committee will no make the race against the service men

Tom Moran committeeman from the First has moved out of the district and it is understood that J P Donahue in the second will also not make the race

BREAK SEEN

The break in the ranks of the Republican local organization is still quite as marked as it was before and after the election in which Elmer Elder made such a showing in spite of the fact that he had been left off the ticket by the Republican convention and there are a number of precincts in which frankly anti-organization men are running for precinct committeemen

Among those given as making an active fight are the following

Fifth—Charles Crump

Eleventh—Elmer R Elder

Twelfth—George Bobb and George Marshall

Twenty second—Fred Frey

Twenty-third—C E Brown

Twenty-sixth—W F Imgrund

Twenty-ninth—W Woshnehl

W F Hardy present chairman of the unofficial city plan commission, was named chairman of the official city plan commission which will have power under the state law, by Mayor Charles M Borchers Monday morning when he announced the complete list of fifteen members which the ordinance provides

MEMBERS OF COMMISSION

Mayor C M Borchers by virtue of his office is a member of the commission and the other fourteen members are as follows W F Hardy, chairman Mrs G P Lewis, Mrs. Fred Dolson Miss Sarah Mark Imboden, H C Schaub J Fred Richter, W H. Collins W L Krigbaum, C Hendrix, P D Wood, Chat Winegardner, J P McGarry, F J Kekeisen, J. A. Zimmer

I have tried to make this group one representative of the whole city," said the mayor after the nominations has been confirmed by the council.

Under the ordinance as passed thirty days ago for the appointment of a city plan commission with full legal powers under the statute the number of fifteen was decided upon although the state law does not make specific mention of the number of members there shall be on such a commission

POWERS DELEGATED

Under the state law passed in 1921 providing for such city plan commissions certain powers are conferred

The plan commission is authorized to prepare and to recommend to the council a comprehensive plan of public improvements looking to the present and future development of the municipality and such a plan, after its adoption by the council is to be known as the official plan of the city

That at the Decatur plan commission will adopt the city plan already made under the unofficial city plan commission which raised the money by voluntary subscription to employ Myron H West and his organization to develope a plan suitable for the future of Decatur is certain

CAN MAKE CHANGES

The legal commission however, had the power to make such changes as it may from time to time find best to make or rather it can recommend such changes to the city council

A very important part of the powers of the city plan commission as given by the statute is that which gives 'it jurisdiction over territory for one and a half miles outside the city limits

STATUTE CLEAR

The statute is very clear on this subject and its intent is undoubted. It says Such plan may include reasonable requirements in reference to alleys streets and public grounds in unsubdivided lands within the corporate limits and in contiguous territory outside of and distant not more than one and half miles from such limits

The commission is expected to prepare plans for recommendation to the city council from time to time for specific improvements in pursuance of the official plan which will have been adopted

OPENING ADDITIONS

In regard to plats or maps of subdivisions presented for record affecting land within the corporate limits or within a mile and a half of such limits on the outside of the city the statute says that none such shall be entitled to record or shall be valid unless the subdivision thereon shown shall provide for streets, alleys and public grounds in conformity with any requirements applicable thereto of such official plan

The city ordinance provides that members of the city plan commission shall receive no compensation for their services except that the secretary may be paid 'whatever amount if any which shall be appropriated for that purpose by the city council '

Under the ordinance which was passed by the city council those appointed to the commission must signify their acceptance in writing to the city clerk within one week after their appointment and must take the oath prescribed by statute for all city officers
